THE NEW BMW M5.

Power delivery, torque and dynamics: the new BMW M5 embodies pure athleticism. The M TwinPower Turbo eight-cylinder petrol engine doesn't just quicken your pulse, it speeds up your everyday life providing uncompromising presence as a natural leader that conquers every challenge, whether on the open road or in the city. The optional new Competition package further enhances the sportiness of this exceptional vehicle with an increase in engine output, Sport suspension and steering with exterior design features such as Black Chrome exhaust tailpipes and exclusive 20" M Double-spoke alloy wheels.

Discover the fascination of speed. The new BMW M5.

BMW EFFICIENT DYNAMICS.

EfficientDynamics is BMW's award-winning programme of technologies designed to reduce CO₂ emissions and improve fuel economy, without compromising on performance or driving dynamics. These technologies are standard on every new BMW. You can find out more about the benefits of BMW EfficientDynamics, as well as compare your own vehicle against a BMW M5 at www.bmw.co.uk/EfficientDynamics

BMW EfficientDynamics
Less emissions. More driving pleasure.

STANDARD EQUIPMENT HIGHLIGHTS.

The BMW M5 is available with a variety of standard equipment. The below table highlights some of this equipment, whilst further details can be found in the BMW M5 model Brochure.

M5

- 19" light alloy M Double-spoke style 345 M
- 20GB hard disk drive (HDD) memory
- Adaptive Headlights
- Air conditioning, automatic with four-zone control
- Ambient lighting – switchable BMW Classic Orange/ Cold White LED
- Black panel display, full
- BMW ConnectedDrive Services, comprising:
 - BMW Apps interface
 - BMW Emergency Call
 - BMW Online Services
 - BMW TeleServices
 - Information Plus
 - Real Time Traffic Information
 - Remote Services
- Brake calipers – Aluminium, front and rear, coloured Blue
- Cruise control with brake and speed limiting function
- DAB tuner
- Door sill finishers with M designation
- Exhaust tailpipes, four, Chrome
- Extended Merino leather upholstery
- Exterior trim, High-gloss Shadowline
- Foglights, rear
- Glass sunroof
- Headlining, Anthracite
- High-beam Assistant
- Head-up Display
- iDrive Touch Controller with shortcut buttons
- Interior trim, Aluminium Trace
- Kidney grille, Chrome surround with Chrome fronted double Black vertical slats and M5 badging
- MDrive Manager
- M Instrument panel
- M rear spoiler
- M Sport leather multi-function steering wheel with gearshift paddles
- Metallic paintwork
- Navigation system – BMW Professional Multimedia
- Rain sensor with automatic headlight activation
- Seat heating, front
- Seven-speed M Double Clutch Transmission (M DCT) with DRIVELOGIC
- Sport seats – front, electric with driver memory
- Tyre pressure monitoring
- V8 engine with four-valve technology and High-precision direct injection
- Xenon Headlights

RRP from £72,320 inc. VAT

OPTIONAL EQUIPMENT HIGHLIGHTS.

ADAPTIVE LED HEADLIGHTS.

The most advanced headlight technology available across the BMW model range.

- Full white LED lights provide a distinctive and unique aesthetic appeal
- Independent beam distribution combines with High-beam Assistant to provide optimum illumination of the road ahead without glaring other road users
- Fully autonomous system that works at all speeds and varying light conditions for improved road visibility and safety

See page 8

BANG & OLUFSEN ADVANCED AUDIO SYSTEM.

Specially designed to deliver a concert hall experience from the comfort of your BMW.

- Moving centre speaker with Bang & Olufsen Acoustic Lens Technology ensuring constant audio quality in all seats
- 5.1 Surround Sound with up to 16 active loudspeakers and 1,200 watts for model specific sound-tuning
- Solid aluminium speaker grills with Bang & Olufsen designation

See page 10

SURROUND-VIEW.

Provides extra assistance during parking and tight manoeuvres.

- Includes Top-view to offer a clear 270 degree view around your BMW
- Provides visual support in confined situations
- Side-view cameras provide added confidence when pulling out from junctions when the view is restricted from the driver's position

BMW CONNECTED DRIVE SERVICES.

1. General information

BMW (UK) Limited of Ellesfield Avenue, Bracknell, Berkshire, RG128TA (hereafter referred to as "BMW") provides the customer with vehicle-specific information and support services under the name "BMW ConnectedDrive" (hereinafter referred to as "Services"). Except where the following description of the individual Services explicitly states otherwise, BMW does not collect, store or process customer data for the Services listed here. For the provision of Services for which the collection, storage and processing of personal data is necessary, the customer shall be informed in advance in order to obtain his/her consent. Services are provided by means of a SIM card installed in the vehicle. Call and data-connection costs are included in the price of the Services. Insofar as it is necessary for the substantive organisation and utilisation of the Services BMW collects, stores and processes vehicle-related data within the legal stipulations.

2. BMW ConnectedDrive basic Services

The BMW ConnectedDrive basic Services "TeleServices" (6AE) and "BMW Emergency Call" (6AC) have already been activated at the point of vehicle transfer.

a. TeleServices (6AE)

The "TeleServices" Service ensures the mobility of the customer. If required or when triggered or commissioned by the customer, the vehicle's technical data (e.g. service information concerning wear parts, vehicle-status information such as check-control notifications, battery-charge status, data for identifying and locating the vehicle in the event of a breakdown) shall be transferred to BMW. In the event that a service is required, these items of data shall be forwarded to the responsible service partner, BMW Mobile Care or respective service providers for the purposes of making contact and arranging an appointment, where they shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties. On occasion technical data shall be transferred from the vehicle to BMW where it shall be evaluated to aid the further development of BMW products. This is known as the "Teleservice Report". This data is exclusively technical, vehicle-related data. Other data such as positioning data shall not be transferred as part of the "Teleservice Report". The "TeleService Battery Guard" continuously monitors the battery-charge status of the vehicle. If the battery-charge status falls below a fixed value, the responsible service partner will be informed. The responsible service partner will then contact the customer if necessary to arrange a service appointment. By registering in the BMW ConnectedDrive Customer Portal, the customer can also be informed about a critical battery status by SMS message or email, for example if the parking lights, side lights or hazards are left on.

b. BMW Emergency Call (6AC)

The vehicle's identification and location is required for the use of the "BMW Emergency Call", and it is also necessary to transmit the information required to provide assistance to the respective emergency-service centre. The user's request and the data required may be transmitted to service providers commissioned by BMW to provide the Service – in that case, these items of data shall only be used to help provide the Service and shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties.

3. BMW Online Services (6AK)

The "BMW Online" (6AK) Service is activated for 36 months after first registration. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

The vehicle's identification is required for the use of the Service and it shall also be necessary to process the information required to provide assistance. The data shall then be deleted. When Points of Interest queries are used, the customer request may be transmitted to service providers commissioned by BMW to provide the Service – in that case, these items of data shall only be used to help provide the Service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

4. Information Plus (6AN)

The "Information Plus" (6AN) Service is activated for 36 months after first registration. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

To use the Service, the customer is connected to the BMW call centre at the push of a button using the integrated telephone unit. In this way, data concerning the vehicle's identification, location and – if route guidance is activated – the selected route may be transmitted to the service providers commissioned by BMW to provide the Service – in that case, this data shall only be used to help process the provision of the Service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

5. Real Time Traffic Information (6AM)

The "Real Time Traffic Information" (6AM) Service is activated for 36 months after first registration. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

The traffic information required for the Service is calculated by a variety of means including using what is known as Floating Car Data. In this sense, every ConnectedDrive-capable BMW functions as a "mobile traffic reporter" (Floating Car). The individual position and sensor data of the vehicle calculated during the trip is transferred – completely anonymously – to BMW and a service provider together with up-to-date time information.

6. Internet (6AR)

The "Internet" (6AR) Service runs for a period of one year after the vehicle's first registration. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

7. Remote Services (6AP)

Use of the "Remote Services" (6AP) either upon request to BMW Customer Support or via the "My BMW Remote" smart-phone application requires registration in the BMW ConnectedDrive Customer Portal.

8. Availability of the Service

The complete range of Services is only available for customers whose vehicles are approved in United Kingdom, and only within United Kingdom.

"BMW Emergency Call" (6AC) is available to customers in United Kingdom, Germany, Austria, Italy, France, and the Netherlands. "TeleServices" (6AE), "Information Plus" (6AN), "Remote Services" (6AP) and "BMW Online" (6AK) can be accessed on any mobile communication network in Europe. When used abroad, the range and characteristics of the service may vary from the range and characteristics described above and may vary from country to country. "Real Time Traffic Information" (6AM) is available in United Kingdom, Germany, Italy and France. The "Internet" (6AR) service is only available in United Kingdom.

9. Deactivation

The customer may have the BMW ConnectedDrive basic Services "TeleServices" (6AE) and "BMW Emergency Call" (6AC) deactivated at any time at an authorised BMW Dealer, a regional BMW branch or an authorised BMW workshop. Deactivation of this Service will also deactivate the SIM card installed in the vehicle. This results in the Emergency Call in the vehicle also not functioning. The other Services can also be deactivated by the customer (from November 2013) via the BMW ConnectedDrive Customer Portal ("My BMW ConnectedDrive").

For further information on BMW ConnectedDrive and the General Terms and Conditions of Service for ConnectedDrive, please see:

www.bmw.co.uk/connecteddrive-information

The BMW ConnectedDrive Hotline is available on:
+44 (0) 800 561 0555 from Monday to Sunday, 9:00 – 18:00.
