THE NEW BMW M3 SALOON AND M4 COUPÉ.

The new BMW M3 Saloon and M4 Coupé showcase an iconic M design, with powerful and muscular exterior features which captivate at first glance. The standard carbon-fibre reinforced plastic (CFRP) roof, new M side gills and eye-catching exterior mirrors are just a few striking elements which demonstrate the potential of these two extraordinary vehicles. Inside both, a comprehensive set of standard equipment ensures comfort and sporting ambience, with a focus on the driver. The powerful new M TwinPower Turbo in-line six-cylinder petrol engine alongside innovative lightweight engineering enables exceptional driving dynamics as well as exemplary efficiency.

BMW EFFICIENT DYNAMICS.

EfficientDynamics is BMW's award-winning programme of technologies designed to reduce CO₂ emissions and improve fuel economy, without compromising on performance or driving dynamics. These technologies are standard on every new BMW. You can find out more about the benefits of BMW EfficientDynamics, as well as compare your own vehicle against a BMW M3 or M4 at www.bmw.co.uk/EfficientDynamics

STANDARD EQUIPMENT HIGHLIGHTS – M3 SALOON.

The new BMW M3 Saloon is available with a variety of standard equipment, the below table highlights some of this equipment.

- 19" M light alloy M Double-spoke style 437 M, Ferric Grey
- 8 programmable favourite buttons
- Air conditioning, automatic with two-zone control
- Active M Differential
- BMW ConnectedDrive Services, comprising:
 - BMW Emergency Call
 - BMW Online Services
 - BMW TeleServices
 - Information Plus
 - Real Time Traffic Information (RTTI)
 - Remote Services
 - TMC for lifetime
- Carbon-fibre reinforced plastic (CFRP) roof
- Control Display – 8.8" colour display screen
- Cruise control with brake function
- DAB tuner
- Door sill finishers with M designation
- Electric windows – front and rear, with open/close fingertip control, anti-trap facility and comfort closing
- Exhaust tailpipes, quad, Chrome
- Extended Merino leather upholstery
- Exterior trim, High-gloss Shadowline
- Five seats
- Foglights, rear
- Gearshift lever with M badge
- Headlining, Anthracite
- iDrive Touch Controller with shortcut buttons

| · digitalradio · |

- Interior trim, Blue Shadow
- Kidney grille, Chrome with Black double vertical slats and M3 badging
- MDrive Manager
- M Instrument cluster
- M multi-function leather steering wheel, three-spoke with M stitching
- M rear spoiler
- M specific rear seat with two integrated headrests and one removable centre headrest
- M specific seats for driver and passenger, lightweight construction with integrated headrests and illuminated M logo
- M TwinPower Turbo in-line six-cylinder petrol engine
- Metallic paintwork
- Navigation system – BMW Professional Multimedia
- Park Distance Control (PDC), front and rear
- Rain sensor with automatic headlight activation
- Rear backrest, lightweight construction, foldable and 60:40 dividable
- Seat heating for driver and front passenger
- Tyre Pressure Monitoring
- Xenon Headlights

RRP from £54,775 inc. VAT

STANDARD EQUIPMENT HIGHLIGHTS – M4 COUPÉ.

The new BMW M4 Coupé is available with a variety of standard equipment, the below table highlights some of this equipment.

- 19" M light alloy M Double-spoke style 437 M, Ferric Grey

BMW INDIVIDUAL. THE EXPRESSION OF PERSONALITY.

The higher your standards, the less room there is for compromise. For drivers with the most exacting standards, BMW Individual offers a range of stunning and perfectly-

crafted materials to ensure that the expression of personality has never felt so effortless.

A BMW Individual paint finish is more than just a colour, each has its own characteristic brilliance and complexity. Five layers deep, the depth of colour is more sophisticated than the regular paintworks thanks to a special pigmentation. A variety of metallic, Xirallic or Frozen finishes create numerous

intense effects and a unique iridescence. Inside, the level of exclusivity can be continued with a variety of hand-picked interior trims which perfectly compliment the choice of supple BMW Individual Merino leather.

Meticulous selection of raw hides ensures this upholstery remains porous, breathable and soft, whilst the leather shades perfectly match the BMW Individual paints. Furthermore, for those customers with a desire for a truly

made-to-measure vehicle, BMW Individual offers an exclusive service to enable customers to tailor their vehicle to a bespoke design by using a range of premium materials.

THE NEW BMW M3 SALOON AND M4 COUPÉ.

TECHNICAL INFORMATION.

Model	Power output (hp)	0-62mph (secs)	Combined fuel consumption (mpg)	CO ₂ emissions (g/km)
M3 Saloon	431	4.3 (4.1)	32.1 (34.0)	204 (194)
M4 Coupé	431	4.3 (4.1)	32.1 (34.0)	204 (194)

PRICING INFORMATION.

Model	Basic price (excluding VAT)	VAT 20%	Retail price (including VAT)	On the road price	P11d value	BIK tax rate (2013 / 2014)	VED band	Insurance group
M3 Saloon	£45,645.83	£9,129.17	£54,775	£56,175	£55,500	32%	K	TBC
M4 Coupé	£46,029.17	£9,205.83	£55,235	£56,635	£55,960	32%	K	TBC

VED rates

VED rates for brand new cars are determined by their CO₂ emissions figure. First year VED applies to the first year of ownership. Annual VED rates apply thereafter. The new BMW M3 Saloon and M4 Coupé models fall into the category listed below:

CO ₂ emissions (g/km)	Band K 201 – 225
First year VED	£620
Annual VED (second year onwards)	£280

Prices and specifications

BMW (UK) Limited reserves the right to alter prices and specifications without notice. BMW (UK) Limited has made every effort to ensure the accuracy of information but does not accept liability for any errors or omissions.

On the road price

The recommended on the road price includes:

Delivery and BMW Emergency Service	£700
Number plates	£25
Vehicle first registration fee	£55
First year Vehicle Excise Duty	See left

BMW CONNECTED DRIVE SERVICES.

1. General information

BMW (UK) Limited of Ellesfield Avenue, Bracknell, Berkshire, RG128TA (hereafter referred to as "BMW") provides the customer with vehicle-specific information and support services under the name "BMW ConnectedDrive" (hereinafter referred to as "Services"). Except where the following description of the individual Services explicitly states otherwise, BMW does not collect, store or process customer data for the Services listed here. For the provision of Services for which the collection, storage and processing of personal data is necessary, the customer shall be informed in advance in order to obtain his/her consent. Services are provided by means of a SIM card installed in the vehicle. Call and data-connection costs are included in the price of the Services. Insofar as it is necessary for the substantive organisation and utilisation of the Services BMW collects, stores and processes vehicle-related data within the legal stipulations.

2. BMW ConnectedDrive basic Services

The BMW ConnectedDrive basic Services "TeleServices" (6AE) and "BMW Emergency Call" (6AC) have already been activated at the point of vehicle transfer.

a. TeleServices (6AE)

The "TeleServices" Service ensures the mobility of the customer. If required or when triggered or commissioned by the customer, the vehicle's technical data (e.g. service information concerning wear parts, vehicle-status information such as check-control notifications, battery-charge status, data for identifying and locating the vehicle in the event of a breakdown) shall be transferred to BMW. In the event that a service is required, these items of data shall be forwarded to the responsible service partner, BMW Mobile Care or respective service providers for the purposes of making contact and arranging an appointment, where they shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties. On occasion technical data shall be transferred from the vehicle to BMW where it shall be evaluated to aid the further development of BMW products. This is known as the "Teleservice Report". This data is exclusively technical, vehicle-related data. Other data such as positioning data shall not be transferred as part of the "Teleservice Report". The "TeleService Battery Guard" continuously monitors the battery-charge status of the vehicle. If the battery-charge status falls below a fixed value, the responsible service partner will be informed. The responsible service partner will then contact the customer if necessary to arrange a service appointment. By registering in the BMW ConnectedDrive Customer Portal, the customer can also be informed about a critical battery status by SMS message or email, for example if the parking lights, side lights or hazards are left on.

b. BMW Emergency Call (6AC)

The vehicle's identification and location is required for the use of the "BMW Emergency Call", and it is also necessary to transmit the information required to provide assistance to the respective emergency-service centre. The user's request and the data required may be transmitted to service providers commissioned by BMW to provide the Service – in that case, these items of data shall only be used to help provide the Service and shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties.

3. BMW Online Services (6AK)

The "BMW Online" (6AK) Service is activated for 36 months after first registration. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

The vehicle's identification is required for the use of the Service and it shall also be necessary to process the information required to provide assistance. The data shall then be deleted. When Points of Interest queries are used, the customer request may be transmitted to service providers commissioned by BMW to provide the Service – in that case, these items of data shall only be used to help provide the Service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

4. Information Plus (6AN)

The "Information Plus" (6AN) Service is activated for 36 months after first registration. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

To use the Service, the customer is connected to the BMW call centre at the push of a button using the integrated telephone unit. In this way, data concerning the vehicle's identification, location and – if route guidance is activated – the selected route may be transmitted to the service providers commissioned by BMW to provide the Service – in that case, this data shall only be used to help process the provision of the Service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

5. Real Time Traffic Information (6AM)

The "Real Time Traffic Information" (6AM) Service is activated for 36 months after first registration. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

The traffic information required for the Service is calculated by a variety of means including using what is known as Floating Car Data. In this sense, every ConnectedDrive-capable BMW functions as a "mobile traffic reporter" (Floating Car). The individual position and sensor data of the vehicle calculated during the trip is transferred – completely anonymously – to BMW and a service provider together with up-to-date time information.

6. Internet (6AR)

The "Internet" (6AR) Service runs for a period of one year after the vehicle's first registration. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

7. Remote Services (6AP)

Use of the "Remote Services" (6AP) either upon request to BMW Customer Support or via the "My BMW Remote" smart-phone application requires registration in the BMW ConnectedDrive Customer Portal.

8. Availability of the Service

The complete range of Services is only available for customers whose vehicles are approved in United Kingdom, and only within United Kingdom.

"BMW Emergency Call" (6AC) is available to customers in United Kingdom, Germany, Austria, Italy, France, and the Netherlands. "TeleServices" (6AE), "Information Plus" (6AN), "Remote Services" (6AP) and "BMW Online" (6AK) can be accessed on any mobile communication network in Europe. When used abroad, the range and characteristics of the service may vary from the range and characteristics described above and may vary from country to country. "Real Time Traffic Information" (6AM) is available in United Kingdom, Germany, Italy and France. The "Internet" (6AR) service is only available in United Kingdom.

9. Deactivation

The customer may have the BMW ConnectedDrive basic Services "TeleServices" (6AE) and "BMW Emergency Call" (6AC) deactivated at any time at an authorised BMW Dealer, a regional BMW branch or an authorised BMW workshop. Deactivation of this Service will also deactivate the SIM card installed in the vehicle. This results in the Emergency Call in the vehicle also not functioning. The other Services can also be deactivated by the customer (from November 2013) via the BMW ConnectedDrive Customer Portal ("My BMW ConnectedDrive").

For further information on BMW ConnectedDrive and the General Terms and Conditions of Service for ConnectedDrive, please see:

www.bmw.co.uk/connecteddrive-information

The BMW ConnectedDrive Hotline is available on:

+44 (0) 800 561 0555 from Monday to Sunday, 9:00 – 18:00.
