COLLECTION 2025

RIDERS GEAR

ENGLISH VERSION | FEBRUARY 2025

MAKE LIFE A RIDE

WEL COME

Clothing is an integral part of the entire motorcycle experience. An amplifier, whether worn while riding (Riders Gear) or in everyday life (Casual Wear): Joy intensified.

With BMW Motorrad Clothing, we offer our customers a holistic product portfolio to enhance their enthusiasm for riding, our brand and the entire experience of MAKE LIFE A RIDE.

Your advice at the Point of Sales plays a significant key role to engage our customers. Please spark their passion by helping them find the BMW Motorrad Clothing that perfectly suits their motorcycle and needs.

WELL COME

Finally you are looking at the first digital Product Guide of BMW Motorrad Clothing. Designed to help you advise customers at the POS in their search.

This document provides all you need to introduce our products to customers in an easy way – plus all important information.

Lets have a look into the chapters:

1. Overview of the collection 2025
2. Presentation of our Highlights and their characteristic features
3. Compilation of existing variants: colors, size ranges, product numbers
4. Cross-Selling recommendations
5. Basics about Riders Gear
(e.g. Material, Membranes, Safety Levels/Classes, etc)

GS RALLYE GORE-TEX OUTSERT TROUSERS

The robust, breathable, wind- and waterproof Outsert trousers made by GORE-TEX completes the GS Rallye GORE-TEX suit for all globetrotters on two wheels. Especially the sealed full zip opening on both legs is a must have to change quick and easy – even with boots on. The mid-sized zip on the back side of lower leg provides a perfect fit around offroad boots.

THE PERFECT MATCH

NEW

PACE TROUSERS

These trousers match perfectly to the Pace Jacket and the Pace Pro Jacket. Not only visually but also in its many safety features and comfort. The elastic materials always offer the best fit and maximum freedom of movement.

Colors: Black
Sizes Men: 46–66 |
24–32 | 98–118
Sizes Women: 34–48

[PRODUCTPAGE](#)

NEW

**PACE JACKET**

This is the more classic version of the Pace Pro jacket. But it's in no way inferior when it comes to safety and comfort. It offers the same features to protect the riders and make their tours more fun. The slim fit creates a nice shape on both men and women.

Colors: Black
 Sizes Men: 46–66 |
 24–32 | 98–118
 Sizes Women: 34–48

[PRODUCTPAGE](#)

TIP FOR SHORT OR TALL WOMEN: The short or long men's sizes might offer the perfect fit!

**PACE PRO & PACE OUTSERT JACKET & TROUSERS**

A stretchy outsert is included for the Pace and Pace Pro Jacket as well as for the matching Trousers. It's very lightweight, comes in a small package size and has a sporty design.

NEW

A pair of black Pro Race Gore-Tex Boots with white and red accents. The boots are shown from a side profile, highlighting the design and the 'BMW MOTORRAD' branding on the side.

PRO RACE GORE-TEX BOOTS
For a completed sporty look: wind- and waterproof boots with removable plastic sliders on the heel and tip.

Color: Black
Sizes unisex: 38 – 48

[PRODUCTPAGE](#)

NEW COLOR

A red and black M Pro Race Helmet | Sprint with white accents. The helmet is shown from a side profile, highlighting the design and the 'BMW MOTORRAD' branding on the side.

M PRO RACE HELMET | Sprint
For uncompromising performance on race track and road trips: the integral helmet in several decors.

Colors: Different decors
Size Range: 53/54 – 63/64 [PRODUCTPAGE](#)

A pair of silver and white M Pro Race Comp Gloves with black accents. The gloves are shown from a side profile, highlighting the design and the 'BMW MOTORRAD' branding on the side.

M PRO RACE COMP GLOVES
For better grip and protection on fast rides: Sporty gloves with elements of Titan, Kevlar and shockabsorbing SUPROTECT foam.

Color: Silver/White with M-Sport Design
Sizes unisex: 6 – 12 [PRODUCTPAGE](#)

SCHWABING JACKET

The Schwabing jacket revives a classic in a new design. Twin stripes on the sleeves set striking visual accents. Under the high-quality cowhide leather, NP Flex protectors on the shoulders and elbows ensure safety while four outside pockets and three inside pockets offer stowage options. Several ventilation options at the front offer increased comfort.

GATOW GLOVES

The classic Gatow gloves are made of high-quality and pleasantly soft elk leather, durable and particularly comfortable to wear. The width of the clasp can be adjusted by the closure on the wrist. This prevents the glove from unintentionally slipping off. Another practical feature is that the index finger can be used to operate touchscreen devices.

Heritage

A man and a woman are standing on a city street at night. The man, in the foreground, is wearing a dark blue jacket with "BMW" and "MOTO" printed on the back. The woman, standing next to him, is wearing a bright blue jacket and black gloves, holding a silver motorcycle helmet. In the background, there are city buildings, streetlights, and a red fire truck. The scene is lit with a mix of warm orange light from the streetlights and cool blue light from the city buildings.

PLUGGED TO LIFE

TOKYO CONNECT

TOKYO CONNECT GORE-TEX JACKET

Commuters will light up the cities with this smart connected jacket. Active lighting on the back and sleeves increases the visibility of the rider. It's also wind- and waterproof and has a removable inner jacket – making it wearable all year round.

KNITLITE SNEAKERS

Robust lightweight: the KnitLite sneaker is certified as a motorcycle shoe. The airy material combines a sporty look with high level of wearing comfort. The robust 2K bicolor TPU sole and reinforced surfaces in the area of the footrests and at the heels prepare the sneaker for the stresses and strains of everyday motorcycling.

Sao Paulo helmet

Riding fashionably, comfortably and safely through the big city – this is what the Sao Paulo helmet stands for with its long visor and integrated sun visor. The closable ventilation elements on the top of the head and spoiler prevent the heat build-up. They are extremely aerodynamic and thus efficiently designed. Practical: removable and washable inner padding.

* Leather Working Group

TEXTILE VS. LEATHER

TEXTILE

- Breathable
- Lightweight
- Wearing comfort
- High abrasion resistance (depending on type)

LEATHER

- Ideal for the toughest applications (e.g. motorsport)
- Higher weight
- Provides more mobility the longer it is worn
- High abrasion resistance
- Better aerodynamics

TEXTILE PROPERTIES

1 POLYAMIDE (E.G. CORDURA)

- Long lasting
- High abrasion and tear resistance
- Comfortable to wear, possibly due to elasticity
- Low weight
- Very easy-care and quick-drying
- High heat resistance

2 POLYAMIDE – DENIM

- Looks like a „normal“ denim cloth, but has more protective properties
- More abrasion-resistant than standard jeans
- Very comfortable to wear
- Easy to care for

3 ORGANIC COTTON

- High quality, as it is skin-friendly and soft
- Low allergy potential due to natural fibre
- Easy to care for
- Highly absorbent
- Breathable material
- Free of herbicides and pesticides

4 MERINO WOOL

- Antibacterial and highly effectively odour-inhibiting
- Breathable
- Temperature-regulating: warms in winter / cools in summer
- Good merino quality is soft and pleasant on the skin

5 ARAMID (KEVLAR®)

- High abrasion resistance and fall protection despite substantially lower thickness
- Long-lasting
- Best grip

LEATHER PROPERTIES

1 COWHIDE

- Very high abrasion and fall resistance
- Particularly durable
- High wearing comfort and pleasant temperature control
- Water-repellent, reduced absorption effect
- Attractive look and feel

2 HYDROPHOBIC LEATHER

- Highly water-repellent
- Better heat regulation and breathability
- Dimensionally stable
- Less susceptible to leather tears or rapid ageing
- Dries faster than normal leather

3 KANGAROO LEATHER/GOATSKIN

- High abrasion resistance and fall protection despite substantially lower thickness
- Long-lasting
- Best grip

4 RAY LEATHER

- Very slippery surface with high abrasion resistance and fall protection and low heat transfer (important on the palm of the hand in the glove)
- Very high longevity
- High quality appearance

CLIMATE MEMBRANE PROPERTIES

Z-LINER

- Very light 3-layer laminate hanging freely between lining and outer material
- Windproof and waterproof
- Moisture can penetrate up to the membrane
- Very comfortable to wear as long as the outer jacket is not soaked

3-LAYER LAMINATE

- Membrane is laminated with the outer cloth and an „inner lamination“ to form a single layer
- Appears stiffer as all layers are processed in a composite
- Windproof and waterproof
- For particularly long wearing times under special conditions

3-LAYER INSERT OR OUTSERT

- Wide range of applications for special conditions (cold, wet) thanks to modularity
- Insert: like a Z-Liner and removable as separate inner lining
- Outsert: like 3-layer laminate
- Outsert: windproof and waterproof and can be worn separately from protective clothing

PROTECTION

WATER-REPELLENT

- Lowest water protection level (up to 8,000 mm water column)
- Cloth is impregnated and is impervious to small drops of rain
- After a longer time or increased water column the water is absorbed
- Hydrophobic materials, additional rain suit recommended

WATERPROOF

- 100 % waterproof (at least 8,000 mm water column)
- The membranes used by BMW Motorrad Clothing can withstand a water column of up to 28,000 mm
- The seams are seam-sealed waterproof on the inside
- Absolute impermeability of the garment (because of the construction)

WINDPROOF

- GORE-TEX Windstopper
- 100% windproof & breathable

FINISHING PROPERTIES

DIRT- AND OIL REPELLENT
Special finishing or refining treatment to give cloths and textiles dirt and oil-repellent properties

OIL FINISH
Water-repellent, permanent coating with oil (remains intact even after washing)

IMPREGNATION
Protects and retains the properties of the materials. Customers can wear the garments longer

PROPERTIES OF PREMIUM INGREDIENTS

- SAS-TEC**
- Very good ergonomics
 - Very good shock absorption
 - Shock resistant
 - Light weight

- YKK ZIPPERS**
- Premium quality
 - Robust and very durable
 - Pleasant handling
 - Optionally also waterproof

- GORE-TEX**
- Permanently water- and windproof
 - Especially breathable
 - Lifetime guarantee (Guaranteed to Keep You Dry)
 - Special: GORE-TEX Windstopper is only windproof & breathable

- VIBRAM**
- Oil and fuel-resistant
 - High-grip (slip-resistant)
 - Very high abrasion resistance
 - Sole exchange service

SAFETY LEVEL & SAFETY CLASS

SAFETY LEVEL = PROTECTORS

- The Safety Level describes the typical features and associated application areas of the **various protectors** (clothing).
- There is an European standard that tests and certifies the protective part of products (used to protect riders in case of a crash).
- The safety Level of motorbike shoes or boots is most of the time Level 1. Level 2 is usually for special boots like for Firefighters, Electricians or Mechanics (semi-conducting, antistatic footwear) etc.

SAFETY CLASS = MATERIAL

- The Safety Classes classifies the **impact and abrasion protection of materials** in general and specific places, the so-called zones.
- The classification makes it easy for sellers or customers to decide which kind of jackets, pants, suits, gloves, etc. should be used for the specific operating areas.

PROTECTORS AND THEIR PROPERTIES

SAFETY LEVEL

SAFETY LEVEL 1

- Joint and back protectors with standard EN 1621-1
- Standard equipment

PRODUCT	SAFETY LEVEL 1	SAFETY LEVEL 2	SAFETY LEVEL 1	SAFETY LEVEL 2
Name of Protector	NP FLEX or NP FLEX 3D	NP 3 EVO	NP 3 FLEX Urban	NP 3 or NP 3 long
Zone	Shoulder, Elbow, Knee	Shoulder, Elbow, Knee and Hips	Back	Back, Back long
Operating Area	Especially for urban areas	Tour, adventure and sports	Especially for urban areas	Tour, adventure and sports
Certification	Norm EN 1621-1	Norm EN 1621-2	Norm EN 1621-1	Norm EN 1621-2

SAFETY LEVEL 2

- Joint and back protectors with standard EN 1621-2
- Allows less impact force in the event of a crash

SAFETY CLASSES

E.g. one or two-piece leather suits for the race track

- Especially high impact and abrasion protection
- Low ergonomic flexibility

Suitable for on- and offroad experience

- Relatively high impact and abrasion protection
- High ergonomic flexibility

Lightweight clothing is ideal for leisure and city trips

- Low impact and abrasion protection
- Restricts mobility as little as possible

HELMETS

Customer requirements for our helmets

- Maximum safety with low weight
- Perfect fit
- Very comfortable to wear
- Communication capability
- Replaceable visors with anti-fog protection
- Breathable and washable inner lining
- Very good aerodynamics and acoustics
- Effective ventilation systems
- Modern design

HELMETS AND THEIR PROPERTIES

JET HELMET

Especially for urban areas

- Open face helmet without chin section
- Classic helmet true to the original style with goggles
- Modern helmet with visor and sun visor

USPs

- Subjectively „freer“ riding feel
- More air
- Large field of vision
- Relatively low weight

INTEGRAL HELMET

Touring, Racing and Sport

- Most common helmet shape
- Various equipment options (e.g. with sun visor, comfortable padding and preparation for communication system)

USPs

- Moderate airstream noise
- Widest selection in various price classes

ENDURO HELMET

Touring, Adventure and Sport

- Combination of full-face and enduro helmet
- Large peak, large visor, with integrated sun visor
- Preparation for communication system

USPs

- Airy, wide field of view
- Peak shield
- Off-road / in hot weather, possibly only usable with Enduro goggles
- Large selection

FLIP-UP HELMET

Touring

- Full-face helmet with flip-up chin section
- Comfortable padding
- Optionally with integrated sun visor
- Preparation for communication system

USPs

- Practical, especially for glasses wearers
- Comfortable
- Easier to remove by laypersons after an accident

BMW MOTORRAD HELMET EQUIPMENT

DOUBLE VISOR

- All BMW Motorrad visors have excellent anti-scratch and anti-fog properties (Pinlock®)
- Anti-fog (hydrophilic) inner coating

VENTILATION

- Very effective head ventilation
- Sealable chin ventilation and ventilation duct routing

RATCHET SYSTEM

- Popular helmet fastening system
- Easy to operate with gloves
- Individually and quickly adjustable with a ratchet-type mechanism

DOUBLE-D FASTENER

- Established helmet fastening system
- System with two D-shaped fasteners for threading in the counterpart

NECKBAND

- Very good results in the roll-off test
- Y-stripes reduce rotation of the helmet
- Ensures that the helmet remains in the best possible position on the head in case of an accident

PROPERTIES OF THE HELMETS

- 1 CARBON
- Lightweight and rigid
 - High strength
 - Significantly higher rigidity with lower weight
 - No thermal expansion
 - Costly
 - High heat resistance

- 2 GLASS FIBRE
- Very good mechanical properties
 - Very good chemical resistance
 - Very good cost performance ratio

- 3 ARAMID (KEVLAR®)
- Highly puncture-resistant
 - High tensile strength
 - Combined with other materials (in a composite) to improve structural integrity (Ductility)
 - Good acoustic damping
 - Free of herbicides and pesticides

- 4 INNER LINING
- Polyester fabric
 - Antiallergic / antibacterial
 - Most padding is removable and washable
 - Recommendation: Use of a balaclava that can be easily washed
 - Pleasant on the skin

The material of the helmets is divided into two areas: Helmet shell and EPS (expanded polystyrene). In order to achieve the best performance, a combination of different materials is used.

MIPS SYSTEM

MIPS = MULTI-DIRECTIONAL IMPACT PROTECTION SYSTEM

- Assorted in selected helmets
- Low-friction layer integrated as a separate layer or within the head cushion
- Absorbs the rotational energy in the event of a crash
- The rotational movement of certain impact movements of the head is reduced
- This reduces the risk of trauma/severe brain injuries

C.A.R.E

CONCEPT

C.A.R.E. HALLMARK

- A quality promise for uncompromising rider's equipment
- An acronym for Concept of Advanced Rider Equipment
- Equipment that meets our high standards for safety, innovation, convenience, comfort, quality and sustainability

C.A.R.E CONCEPT

The C.A.R.E. concept is composed of the following standards:

INNOVATION

Innovation is part of our DNA

- 1981 world's first flip-up helmet
- 1986 the first manufacturer to use GORE-TEX in their rider's equipment
- 1990 Kevlar reinforcement for a motorbike suit
- 2021 Jackets with integrated lighting

QUALITY

High Quality

- Numerous test kilometres, many days in the wind tunnel and the toughest real-life applications
- Standards that no other manufacturer specifies with such rigour

COMFORT

Focus on ergonomics, climate and acoustics

- Especially „quiet“ helmet
- Innovative ventilation and membrane systems
- Materials that are very comfortable to wear and fit perfectly

SAFETY

Maximum safety through development and testing in our own workshops

- Abrasion resistance of crash-prone areas tested using crash simulators
- Crash points with the latest CE protectors, doubled-up and double-stitched

SUSTAINABILITY

A sense of responsibility towards the environment

- Use of organic cotton or recycled fibres
- Longevity of the products -> Conservation of resources
 - Extensive range of services

COMPARISON BETWEEN STANDARD AND C.A.R.E.

	STANDARD	C.A.R.E
TEAR RESISTANCE	The minimum tear resistance of the materials is specified to DIN standard DIN EN ISO 4674-1: 2017, Method B	These Standards are our minimum requirement
AERODYNAMICS / AEROACOUSTICS OF THE HELMETS	No testing of the aerodynamics and aeroacoustics	The aerodynamics and aeroacoustics are tested as a complete system (with helmet, rider and motorbike) in the wind and climate tunnel of BMW
WATERPROOFNESS	According to a DIN standard, a fabric with a water column of 8,000 mm is considered waterproof	The membranes used by BMW Motorrad (e.g. GORE-TEX) achieve a water column of up to 28,000 mm with particularly high breathability
UV RESISTANCE	No normative requirements	Paint systems and textiles are tested for durability and visual changes under strict test requirements. We demand very high standards here (4,5-5 of 5 points)
FIT AND ERGONOMICS	The standard only specifies standard sizes	The range of sizes available from BMW Motorrad is based on standardised clothing sizes. high volume products are also available in short and long sizes
HEIGHT ADJUSTABILITY OF THE PROTECTORS	No normative requirements / guideline	Our knee protectors are height-adjustable as standard and can therefore be adapted to the rider for a comfortable fit and protection

CONNECTIVITY

CONNECTEDRIDE

- A functional product family that you can link by Bluetooth
- Control most of all using the BMW Motorrad Connected app
- Wirelessly beams your smartphone's usual features, such as telephony, music and navigation to the TFT display of your motorcycle

CONNECTIVITY

JACKE TOKYO CONNECT GORE-TEX

ACTIVE LIGHTING

Light conductors that have been smoothly integrated into the back and sleeves are waterproof and flexibly adapt to your movements. They make sure you are seen in poor lighting conditions due to rain or smog during the daytime or at night in the dark. The light conductors thus make sure that you are no longer overlooked in traffic and they guarantee you added safety. Simply switch them on using the BMW Motorrad Connected app or the touch panel that has been integrated into the sleeve. And there is no issue with washing them together with the jacket.

INTEGRATED TOUCH PANEL

The bottom right-hand sleeve accommodates the invisible touch panel that is merely characterised by a graphic design. Simply touch it and switch your jacket's active lighting on or off. The other alternative would be to assign a different favourites function to it in the BMW Motorrad Connected App. As a result, you could also use it to open your navigation favourites, skip a song or operate and configure other Connected Rider Gear products.

CHARGING POCKET AND POWER SUPPLY

The charging pocket is in the jacket's left-hand inside pocket. Simply slip your smartphone in it when you leave the house and it will automatically charge. Consequently you will no longer have to worry about an empty battery. The pocket is supplied with power by a power bank that has also been integrated into the jacket. Alternatively you can also connect the jacket to your bike with a power cable. In this case you can use the BMW Motorrad Connected App to decide whether to charge your smartphone or the power bank.

CONNECTIVITY

CONNECTEDRIDE SMARTGLASSES

HEAD-UP DISPLAY

A head-up display that you can turn on or off at any time. The optical projection module sits above the right lens on the inside. It shows you information about speed, speed limit, gear and navigation in your direct field of view while riding. And it all comes in the familiar BMW Motorrad design. So you can concentrate fully on the road. And whenever you don't need the information, simply switch off the display using the button on the left temple or via the BMW Motorrad Connected app. The charging interface is also located on the temple, through which you supply the glasses with power via the charging cable.

SMARTGLASSES

The smartglasses with UV protection look like sporty sunglasses and suit your needs with their slim shape and light weight. Choose from one of four different nose pads for the perfect fit. Depending on the weather, you can choose between the 85%-clear or the tinted lenses. The light sensor automatically ensures that you can always see the riding information clearly and are not dazzled.

FOR SPECTACLE WEARERS

An RX adapter is available separately that fits inside the smartglasses. Once you have been measured by your optician, you can order your corrective lenses directly from the eyewear supplier and clip them into the smartglasses.

CONNECTIVITY

MORENO CONNECT GORE-TEX JACKET

ACTIVE LIGHTING

Light conductors that have been smoothly integrated into the back and sleeves are waterproof and flexibly adapt to your movements. They make sure you are seen in poor lighting conditions due to rain or smog during the daytime or at night in the dark. The light conductors thus make sure that you are no longer overlooked in traffic and they guarantee you added safety. Simply switch them on using the BMW Motorrad Connected app or the touch panel that has been integrated into the sleeve. And there is no issue with washing them together with the jacket.

INTEGRATED HEATED VEST

The integrated heated vest can be controlled using a smartphone or via the motorcycle. The power to the control unit is either supplied via the power bank or directly via the motorcycle.

EXCELLENT FUNCTIONALITY

The three-layer outer material keeps the jacket waterproof at all times, while generous ventilation options ensure an optimum climate. Back and joint protectors offer a high level of safety even off the beaten track. It has three inside pockets, one designed as a charging pocket for smartphones.

CONNECTIVITY

WIRELESS COMMUNICATION

BLUETOOTH COMMUNICATION

The BMW Motorrad Bluetooth communication system is based on the Bluetooth Standard 2.0 and allows wireless communication between two helmets and other Bluetooth components such as a navigation system, mobile phone or MP3 player.

NAVIGATION & COMMUNICATION

The communication system consists of a M-ASK-H, a microphone and two speakers for a helmet, as well as NiMH batteries that have a continuous operating time of ten to twelve hours. The system is controlled via a three-button module that fits exactly into the back of the helmet. The BMW Motorrad communication system is intended to enable a driver and a pillion passenger to communicate, but it also enables communication with other Bluetooth-capable devices. For example, in addition to being able to talk to the passenger, the driver can also hear directions from the BMW Motorrad Navigator, make telephone calls or listen to music, provided that the other devices are also Bluetooth compatible.

UP TO 100 M

The BMW Motorrad communication system also enables communication from motorcycle to motorcycle. Depending on the conditions, the system is capable of communications over distances of up to 100 meters, with slight limitations to the audio quality. If the connection is interrupted due to greater distances or poor conditions, it will be automatically restored when the distance between the parties is small enough again.
