# PERFECTION TAKES NO STANDARD FORM

Riding pleasure begins well before you actually climb onto your motorcycle. It begins with anticipation, inspiration, and a feeling of being safe while suiting up for the next ride. That's why BMW Motorrad created the C.A.R.E. stamp of approval. C.A.R.E. stands for Concept of Advanced Rider Equipment, and represents the unwavering commitment to **safety, innovation, comfort** and **quality**.

These elements form the foundation of any BMW Motorrad rider's equipment. Whether we're talking about the new, hard-wearing materials developed by a dedicated R&D team, the sophisticated design elements that increase both protection and comfort, or the testing methods devised and employed in-house, the highest standards are applied from start to finish.

All our products are the result of years of research and development and only receive the C.A.R.E. seal of approval when they meet BMW Motorrad's exacting standards. We want you to enjoy riding your motorcycle – and that doesn't just mean meeting standards. It means surpassing them, in everything we do.

Find out more at  
[bmw-motorrad.com/care](http://bmw-motorrad.com/care)

## SAFETY

Safety is paramount when you are riding a motorcycle. This applies to both the bike itself as well as its rider's protective clothing. Motorcyclists are directly exposed to all external conditions, both positive and negative. Consequently, we have made this principle one of the basic C.A.R.E. criteria we take into account when we develop our rider's equipment. From rider's boots to helmets – there is almost no detail we have not developed and tested with road safety in mind.

In this process, we focus mainly on the compatibility of individual items. Regardless of whether you are wearing a BMW Motorrad jacket, trousers and helmet, or if you are combining various products, every single equipment item must work together as a unit and provide comprehensive rider protection.

The material in the impact areas of any jacket, pair of trousers and suit is reinforced, features double stitching and the most recent version of CE protectors. Consequently, the equipment copes with everyday motorcycling demands as well as the most severe impacts on tarmac or gravel without restricting rider's freedom of movement.

BMW Motorrad has one objective in mind, from material to processing and crucial testing: actively and passively protecting motorcyclists in any situation to make sure they enjoy a carefree riding experience. That's what we call BMW Motorrad safety.

## COMFORT

Just like safety, comfort is a crucial factor in the development of rider's equipment. Ultimately, it's about providing maximum passive protection while ensuring riders are not distracted by anything they are wearing.

For this reason, BMW Motorrad helmets are specially insulated to reduce noise, while the brand's clothing is designed with innovative ventilation and membrane systems. Feeling good at any temperature and in any weather is the only way to guarantee riders' ability to react quickly to events on the road.

BMW Motorrad helmets, jackets, suits, trousers, boots and gloves don't just look good – they're in a class of their own when it comes to practicality. We strive to set new standards in everything we do. Whether it's the collar, the sleeves or the cuffs – we're meticulous about every part of every garment, no matter how big or small.

## INNOVATION

Innovation has been at the heart of BMW Motorrad since it was established in 1923. We've also led the way in the development of rider equipment since the mid-seventies. We've invested years of research, development and testing to create solutions that meet wide-ranging requirements for clothing designed for motorcycle riding,

with the aim of making the best even better. For example, we developed the ground-breaking BMW Climate Membrane, which combines high water resistance (with a minimum 10,000-mm water column) with incredible breathability. Combining unprecedented damping properties with maximum comfort, our continually upgraded NP protectors are prime examples of why BMW Motorrad rider equipment is at the forefront of innovation. Added safety also always plays an important role. Case in point: the ultra-lightweight System 7 Carbon helmet, whose 100% high-performance carbon-fibre shell offers reliable protection and can be converted into a jet helmet in seconds – all without the help of special tools.

C.A.R.E. is a promise to our customers that our products will always remain at the cutting edge of safety, quality and comfort.

## QUALITY

Take your time on tours and you will have a great time! For this reason, we cover countless test miles on the road to identify any potential weaknesses of our products. We know that any BMW Motorrad rider's equipment is often used for many years and for trips of many thousand kilometres.

There are no statutory requirements for quality and durability, which is why we have developed our own standards and specifications. And we consistently hold to these standards. As a manufacturer of rider's equipment, BMW Motorrad operates its own laboratory to thoroughly test development methods, materials and finished products.

There is basically nothing that is not pushed to its limits by shaking it, scraping it or pulling on it. Only in this way can you be certain of a quality no one else can deliver.

# C.A.R.E. STANDARDS: A COMPARISON

## SAFETY

TEST CRITERIA	STANDARD	C.A.R.E. STANDARD
<b>Impact absorption</b>	Materials must offer a minimum resistance of 100 N/cm <sup>2</sup> . (DIN EN ISO 13937-2:2000; tear resistance*)	BMW Motorrad offers right and left-side protectors that can be adapted to the rider's specific shape. They offer excellent impact absorption performance and have won countless consumer awards.
<b>Tear resistance</b>	Materials must offer a minimum resistance of 100 N/cm <sup>2</sup> . (DIN EN ISO 13937-2:2000; tear resistance*)	The materials employed by BMW Motorrad must be able to withstand a force of at least 1000 N/cm <sup>2</sup> .
<b>Helmet aerodynamics/aeroacoustics</b>	Helmets are tested individually for aerodynamic and aeroacoustic performance, without the rider or motorcycle.	We analyse the aerodynamics and aeroacoustics for the helmet (with both rider and motorcycle) over many hours of wind tunnel testing.
<b>Helmets' angle of sight</b>	Standard regulations do not call for helmets to offer an expanded (and thus safer) field of vision.	By offering angles of sight that go beyond industry norms, our helmets provide a wider field of vision, particularly laterally. This significantly increases safety when riding in urban areas.

## INNOVATION

TEST CRITERIA	STANDARD	C.A.R.E. STANDARD
<b>Water resistance</b>	According to DIN standards, fabric with a water column of 1,300 mm is considered waterproof. (DIN EN 20811:1992; water resistance*)	The BMW Climate Membrane combines high water resistance (with a minimum 10,000-mm water column) with impressive breathability.
<b>Practicality</b>	Legal requirements do not call for motorcycle clothing to be tested in use at all.	BMW Motorrad riders assess the practicality of every item we produce over numerous rides (including endurance testing) in a range of weather conditions.
<b>Helmet water resistance</b>	There is no legal requirement to integrate seals within the structure of helmets. If desired, manufacturers can simply apply seals using adhesive.	Our innovative seals are built into the structure of our helmets, and are not glued on. This ensures peerless protection and water resistance in even the toughest conditions.
<b>Helmet angle of removal</b>	By law, the maximum angle of removal permitted for helmets is 30 degrees. (ECE 22.05 roll-off test*)	The angle of removal for BMW Motorrad helmets is considerably smaller than is required by law thanks to our innovative neck straps.

## COMFORT

TEST CRITERIA	STANDARD	C.A.R.E. STANDARD
<b>Fit and ergonomics</b>	In general, only standardized sizes are available (DIN EN ISO 340*).	The sizes we offer are based entirely on the dimensions measured and supplied to us by our customers.
<b>Height-adjustable protectors</b>	There is no legislation that requires knee protectors to be height-adjustable.	Our protectors are height-adjustable as standard, ensuring the perfect fit for each rider.
<b>Helmet ventilation</b>	Standard helmets offer ventilation around the upper part of the head only.	BMW Motorrad helmets are designed to allow air to circulate around the entire head. The chin and visor areas are well ventilated to ensure clarity even in the toughest conditions.

## QUALITY\*

TEST CRITERIA	C.A.R.E. STANDARD
<b>Resistance to fading</b>	Garment samples are spread out under xenon light to test their resistance to fading. (Based on DIN EN ISO 105-B02:2002; resistance to fading*)
<b>Resistance to rubbing</b>	Each material is placed alongside a wet or dry testing fabric, and the two are rubbed together. The material's rub fastness is assessed based on the colouring of the test fabric. (Based on DIN EN ISO 105-X12:2002; resistance to rubbing*)
<b>Colour resistance against sweat</b>	Textiles are placed alongside a testing fabric soaked in sweat, and the two are rubbed together. (Based on DIN EN ISO 105-E04:2013; resistance to sweat*)
<b>Oil resistance</b>	Materials are tested for their resistance to oil and petrol in the same way as the colour fastness analysis. (Based on DIN EN ISO 105-X12:2002; resistance to rubbing*)
<b>Velcro resistance</b>	Textiles are subjected to the Martindale abrasion test, at a force of 9 kPa over 4000 cycles, to assess their resistance to wear. (VDA 230-210:2008 based on DIN EN 530:2013; resistance to wearing*)
<b>Resistance to washing</b>	Textiles are sewn into a piece of test fabric, then placed in a beaker full of detergent solution and agitated. The test fabric is then dried, and the colouring assessed. (Based on DIN EN ISO 105-C06:2010; textile resistance to washing*)
<b>UV resistance/impact resistance of helmets</b>	Our paint systems are subjected to strict testing to ensure they maintain their appearance and performance over time.
<b>Chin part wear on helmets</b>	In fatigue testing, the opening and closing of the visor and chin section is repeated over and over again. This ensures the helmet functions correctly throughout the entire life cycle.

\* As there are no legal requirements for quality, we work from the relevant DIN EN ISO standards.

# HERITAGE

The BMW Heritage collection is more than just functional rider's equipment. It is a tribute to the history of BMW Motorrad, which dates back to 1923, when the first motorcycle went into production at BMW. At that time motorcycling was reduced to the essentials. With the Heritage collection we are returning to this origin.

The collection was inspired by the famous colour identity of those first motorcycles: strong black and fine white lines – the famous pin stripes on the teardrop tank. The striking, historic BMW emblem from the 1920s, whose lettering and border were still made of copper, was also used in the Heritage collection.

Such details are reflected in the entire collection, starting with the classically cut leather jackets, the Bowler helmet, the gloves and the boots. The materials are hard-wearing and meet the high demands placed on safety and function by motorcyclists today. All in all, the new Heritage collection represents a combination of tradition and the best that contemporary and authentic lifestyle motorcycle clothing has to offer today. Together with us, experience the history of BMW Motorrad and the passion for motorcycling in its classical design.

**PUREBOXER LEATHER JACKET**

NEW

**Men**

The classic cut of the PureBoxer leather jacket has an understated design, as was common in the early years of the last century. At the same time, it stands out due to a superb functionality that makes motorcycling comfortable and safe. The exclusive horse leather is characterised by its smooth surface, subtle grain and fine sheen. Regular wear lends the jacket a lovely patina. The copper-coloured BMW badge on the sleeve is attached with two screws, as on classic BMW motorcycles, and can be replaced with the other logos supplied.

- High-quality, classic jacket made of 1.2-mm thick horse leather
- Removable thermal lining, 3 outside pockets, 2 inside pockets
- NP-Flex protectors on shoulders and elbows (EN 1621-1:2012)
- NPL back protector can be retrofitted
- Connector zip, 40 cm
- Additional men's size: Slim fit
- CE-certified

**HERITAGE BOWLER HELMET**

NEW

The Heritage Bowler helmet appeals to fashion-conscious bikers with its retro look. This can be seen in the classic design, which invokes BMW Motorrad history, and in details such as the leather appliqués or the lining with embossed BMW logo. A perfect fit for any size. A wide range of accessories complements the offer.

- Fashionable and comfortable jet helmet with impressive design
- High-quality leather and textile lining with embossed BMW logo
- Chinstrap with double D buckle, freely adjustable
- Low helmet weight between 785 g (size XS) and 970 g (XXL)
- Extensive range of accessories (see page 30/31).
- ECE 22-05 homologation

## TWINSTRIPES LEATHER JACKET

NEW

Women

Men

### Women's and men's

The TwinStripes leather jacket, with its classic sporty design, features traditional decorative lines on the sleeves. It therefore picks up on special features that characterise the design of many other BMW motorcycles. Modern NP-Flex protectors on the shoulders and elbows are hidden under the leather.

- Classic sporty motorcycle jacket made of cowhide leather.
- Completely lined, a total of seven pockets.
- Connector zip: 40 cm
- NP-Flex protectors on shoulders and elbows (EN 1621-1:2012)
- NPL back protector can be retrofitted
- Ventilation zips
- Additional men's size: Slim fit, Comfort fit
- CE-certified

**GS CARBON HELMET**

The GS helmet has a sleek design worthy of the off-road scene that inspired it. A carbon shell and integrated BMW neck straps offer the maximum rider safety. The sun shield and aerodynamic spoiler, optimised in a wind tunnel, provide the comfort to match.

- Enduro-style helmet, perfect for touring (two helmet shell sizes available)
- 100% carbon-fibre reinforced plastic shell
- Outstanding impact absorption and safety performance
- Inner layer made of multi-segmented expanded polystyrene
- Double-glazed, three-dimensionally curved visor
- Anti-fog inner visor, outer visor has anti-scratch coating on both sides
- Spoiler and removable sun shield for optimum aerodynamics
- Highly effective ventilation system
- Integrated dust filter and removable chin vent flap for off-road and hot-weather riding
- Removable, washable head and cheek pads
- Integrated neck straps for optimum safety performance
- Compatible with BMW Motorrad communication system
- Can be adjusted in a matter of seconds
- Safety standard: ECE 22-05
- Weight: approx. 1,450 grams with shield and dual visor
- Optional visor in tinted silver reflective, blue reflective or orange

SYSTEM 7 CARBON HELMET

5 Colour: Black

6 Colour: Light white

7 Colour: Graphite matt metallic

8 Colour: Silver metallic

The System 7 Carbon helmet provides maximum comfort and safety. The full carbon helmet shell is especially light and has outstanding impact absorption properties. The quadruple-joint chin bar pivot ensures a low front profile even with the chin bar open. Removing the chin guard requires no tools and only two buttons – turning it into a fully fledged jet helmet. The sun visor is easily adjustable to adapt to sudden changes in light. Excellent ventilation helps you keep a cool head and a double-glazed visor ensures unobstructed vision. In terms of aerodynamics and aero-acoustics, the helmet ranks among the best on the market.

- Flip-front helmet with quadruple-joint mechanism
- Lightweight, 100% carbon shell (two sizes) with excellent impact absorption and optimum rigidity
- Inner layer made of multi-segmented expanded polystyrene
- Double-glazed visor: anti-fog inner visor, outer visor has anti-scratch coating on both sides
- Effective ventilation for head and visor
- Outstanding aerodynamics and aeroacoustics
- Built-in drop-down sun visor, operated via slide control
- Large spoiler
- Central release button to open the chin guard
- Chin strap with a snap lock closure, integrated neck straps prevent the helmet from twisting in the event of an impact
- Removable, washable liner made of DuPont Coolmax and Alcantara
- Quick and easy conversion to a jet helmet
- Compatible with BMW Motorrad communication system
- Safety standard: ECE 22-05
- Low weight: approx. 1,580 grams (small helmet)
- Optional visor in tinted silver reflective, blue reflective or orange

**RACE HELMET**

For helmets to deliver maximum safety, they must combine a number of different functions. As would be expected, the integral Race helmet is exceptional when it comes to impact absorption. Its race-proven, full-face design lets you concentrate completely on the road ahead, and react at lightning speed.

- Integral helmet, suitable for the racetrack
- Glass-fibre/carbon-fibre outer shell in two sizes
- Inner layer made of multi-segmented expanded polystyrene
- Large spoiler for maximum stability even at speeds over 300 km/h
- Visor with wide field of vision (even in the prone position), two-dimensionally curved, with anti-scratch coating on both sides
- Anti-fog inner visor
- Effective visor and head ventilation
- Visor lock button at the side
- Enlarged neck contour ensures wearer comfort even when riding in the prone position
- Double-D fastener
- Neck straps prevent the helmet from twisting in the event of an impact
- Fully removable and washable liner
- All colours supplied with clear visor and one set of tear-offs
- Safety standard: ECE 22-05
- Weight: 1,350 grams (small helmet)
- Tinted visor available as an optional extra

**STREET X HELMET**

The BMW Motorrad Street X helmet has been designed to take on any road, be it motorway, city street or country lane. This is a helmet that effortlessly combines comfort and safety with a stylish modern design. The sun visor can be adjusted freely, giving you full control to quickly adapt the helmet to various light conditions. The Street X has been wind-tunnel tested to ensure optimum aerodynamics and aeroacoustics. Superb ventilation makes sure you keep a cool head and the double-layered visor ensures you keep everything in sight. And in spite of this wide range of functions, the Street X remains incredibly lightweight.

- Full-face helmet with integrated sun visor
- Inner layer made of multi-segmented expanded polystyrene
- Double-glazed visor: condensation-resistant inner visor; outer visor with scratch-resistant coating
- Excellent head and visor ventilation
- Optimum aerodynamics
- Integrated sun visor, adjustable via a slider bar on the top of the helmet
- Chin strap with double-D fastener
- Removable, washable interior elements
- Safety standard: ECE 22-05
- Low system weight: approx. 1,450 grams (small helmet)
- Optional visor in tinted silver reflective or blue reflective

**AIRFLOW HELMET**

A helmet for the warmer periods of the motorcycle season. A modern design made from premium material and with unrivalled AirFlow functionality. Keep a cool head thanks to the optimally positioned ventilation openings and channels, which can be closed when not needed. These are aerodynamics and aeroacoustics of the highest level. Also prepared to accept the BMW Motorrad communications system and conforms to ECE-22-05.

- Premium jet helmet with excellent ventilation
- Outer shell made of glass-fibre reinforced plastic
- Inner layer made of multi-segmented expanded polystyrene
- Three-dimensionally curved visor, with anti-scratch coating on both sides (class 2 optical quality)
- Two large ventilation zones can be closed via slide control
- Outstanding aerodynamics and aeroacoustics
- Chin strap with snap lock and variable insertion depths
- Integrated neck straps
- Washable liner
- High-quality aluminium elements with BMW branding
- Compatible with BMW Motorrad communication system
- Safety standard: ECE 22-05
- Weight approx. 1,170/1,280/1,380 grams (depending on shell size)
- Tinted visor available as an optional extra

**BOWLER HELMET**

The Bowler helmet is a BMW Motorrad helmet which has been specifically developed for the design-conscious motorcyclist. It combines comfort and safety with a modern retro design, which is especially accentuated by the exclusive leather applications and the high-quality inner lining with embossed BMW logo. A lean and elegant look is provided by the four helmet shell sizes with an interior made of expanded polystyrene (EPS) – the perfectly adapted fit for every size guarantees outstanding comfort. The matching high-quality range of accessories, for example visors and peaks, complete the outfit.

- Jet helmet in modern retro design
- Outer shell: fibre composite made of glass and carbon-fibre-reinforced plastic (GFRP/CFRP)
- Inner shell made of expanded polystyrene (EPS)
- Very good aeroacoustics
- Inner lining made of antibacterial and hypo-allergenic material
- Chin strap with double-D fastener
- Helmet edge and eyewear strap holder made of high-quality calfskin
- Low weight: approx. 785 g (small helmet shell)
- Extensive range of accessories
- ECE 22-05 homologation

**Sizes:**  
53/54 to 62 (XS–2XL)

- Price:**
- 1 Decor: Option 719 Limited Edition\* £ 420.00

# COMMUNICATION SYSTEMS

Talking to fellow riders, making phone calls, listening to music – it's all possible with the BMW Motorrad Navigator connection and TFT display; the BMW Motorrad V3 and Fit-for-All communication systems with Bluetooth gives the rider an exceptional listening experience thanks to easy operation and light weight. The systems enable wireless voice communication between two helmets for rider and passenger. All BMW Motorrad communication systems are compatible with each other and can be linked to all relevant interfaces of your BMW Motorrad. The Bike-to-Bike communication module is your ideal companion to establish a connection to a selected group of up to six vehicles while you are on the road.

## V3 COMMUNICATION SYSTEM

The third generation of integrated BMW Motorrad helmet communication systems provide optimum fit in your System 7 Carbon, GS Carbon, System 6, System 6 EVO or AirFlow helmet.

- Completely integrated communication system in the helmet (operating buttons on outside of helmet)
- Rider and passenger communication system
- Can be enhanced to communicate with up to 6 motorcycles using Bike-to-Bike communication module
- Design specifically adapted to the helmet
- Stream music using BMW-compatible audio sources also to passenger
- Telephony, providing a Bluetooth-compatible mobile phone has been connected
- Automatic interference suppression
- High-grade loudspeakers for audio playback in stereo quality
- Improved voice quality thanks to HD audio system
- Voice control of the connected mobile phone can be started at the touch of a button
- Battery life: depending on use up to 16 hours (2500 mAh)

**Price:**  
V3 communication system      **£ 345.00**

## FIT-FOR-ALL COMMUNICATION SYSTEM

The Fit-for-All communication system merges functionality and slim design. This system is compatible with most helmets currently available on the market.

- Universal helmet communication system
- Rider and passenger communication system
- Can be enhanced to communicate with up to 6 motorcycles using Bike-to-Bike communication module
- Easy integration into the helmet
- Stream music using BMW-compatible audio sources, also to the passenger
- Telephony, providing a Bluetooth-compatible mobile phone has been connected
- Automatic interference suppression
- Battery life: depending on use up to 8 hours (560 mAh)
- Not available in conjunction with Bowler helmet.

**Price:**  
Fit-for-All communication system      **£ 140.00**

## BIKE-TO-BIKE COMMUNICATION MODULE

In combination with a BMW communication system it is possible to communicate with a group of up to 6 vehicles that have also been equipped with Bike-to-Bike communication module when you are on the road.

- Universal helmet extension for communication systems for group communication
- Compatible with BMW Motorrad V3 and Fit-for-All communication systems
- One Bike-to-Bike communication module is required per motorcycle
- One rider and one passenger helmet can be connected per communication module
- Range between two Bike-to-Bike communication modules up to 300m in ideal conditions
- Range between two Bike-to-Bike communication modules up to 2 km as part of a large group featuring six communication modules
- If the group moves out of range and the connection cuts out, the connection is automatically re-established upon detection
- Create communication groups and configure additional settings using a free app
- Battery life: depending on use up to 9 hours (1400 mAh)

**Price:**  
Bike-to-Bike communication module      **£ 267.00**

# SUITS

Motorcyclists place a lot of value on being protected from the elements at all times, come what may. From well-ventilated summer outfits and waterproof touring suits to leather one-pieces, BMW Motorrad offers perfectly designed solutions for every scenario. And with the Rallye suit, there's even a model for the most demanding globetrotters.

## XRIDE PRO LIMITED EDITION JACKET\*

NEW

### Men

The limited edition XRide Pro jacket for men is an especially remarkable eye-catcher. Its white cowhide leather on the arms is particularly striking. The same applies to the additional shoulder pads made of a plastic-steel combination with BMW Motorrad branding. Limited edition, with outsert jacket included.

- Elastic and abrasion-resistant polyamide outer material
- The white cowhide leather inserts on the arms ensure a particularly striking appearance and offer additional protection in fall-prone zones.
- Additional shoulder pads made of a plastic-steel combination with BMW Motorrad branding
- Ergonomic concept: special choice of materials and coordinated design ensures high freedom of movement.
- High percentage of stretch material
- 3D mesh at the back for pleasant circulation
- Close-fitting NP3 protectors on shoulders, NP2 protectors on elbows and NP Pro long back protector

- Four front pockets, one waterproof, one back pocket and two inside pockets
- Reflective inserts on upper arms and jacket front
- Included outsert jacket in sporty design with small pack size
- Sporty regular fit
- Can be combined with XRide trousers
- Limited quantity

Providing fit, support and ventilation: with a zip-up bib with stretch zones at the side and adjustable braces, the men's trousers are more comfortable than ever.

The detachable storm collar with integrated storm hood is a reliable shield against wind and rain.

## GS DRY SUIT

### Women's and men's

Take to the streets with the enduro look: This waterproof biking suit is the perfect companion for any tour, offering optimum weather protection for every adventure. In the heat of the summer, its unique ventilation system comes into its own, thanks to the robust CORDURA 500 material with highly breathable BMW Climate Membrane.

- Waterproof enduro suit, suitable for touring
- Outer made from robust CORDURA 500 / polyamide blend for optimum durability
- BMW Climate Membrane ensures suit is windproof, waterproof and highly breathable
- Enhanced protection on areas most susceptible to falls, with half-tone PU coating with ceramic particles
- Removable NP2 protectors at shoulders, elbows, knees (height-adjustable) and hips
- Includes long NP Pro back protector
- Unique watertight zips also open the membrane for direct airflow to cool the upper body
- Stretch inserts at the arms, knees and seat
- 3D air mesh lining at the back for optimal circulation
- Velcro straps for adjustable fit on the sleeves, waist and trouser hemline
- Two waterproof flap pockets
- One chest pocket, one sleeve pocket and two pockets each on the back and on the trousers
- Leather trim on the interior at the knee for secure grip during off-road riding
- Reflective print on the arms and collar
- Connector zip: 40 cm
- Regular fit
- CE-certified

**RALLYE SUIT**

**Men**

The Rallye suit is extremely well ventilated and is ready to take on anything. The watertight insert can be worn both under and over the jacket for optimum protection from rain, wind and dirt. A real globetrotter, the suit is also made of abrasion-resistant ProTechWool and has several pockets for storing your personal items. The Rallye Competition jacket from the limited 40 years GS Collection is reminiscent of the legendary BMW R 100 GS with its historical colour combination.

- Off-road suit with removable waterproof insert (available separately for Rallye Competition suit)
- Suitable for warm to moderate temperatures
- ProTechWool, a quick-drying, temperature-regulating performance fabric made from wool and polyamide with a carbon finish
- Wind and waterproof inner/outer jacket: Three-layer wear-resistant material ideal for keeping out rain and dirt – can be worn over jacket (available separately for Rallye Competition suit)
- Trousers with wind and waterproof BMW Climate Membrane insert with Comfort Mapping: membrane qualities matched to different areas of the body
- Material reinforced in vulnerable areas
- Elastic, breathable mesh lining in the jacket
- Trousers with elastic inserts
- Long leather trim on the interior at the knee for secure grip during off-road riding
- Hem edge reinforced
- NP2 protectors on shoulders, elbows, hips and knees (adjustable to three different heights)
- Long NP Pro back protector
- Optional chest guard, attached with four press studs
- Sophisticated ventilation system using flaps on chest, zips on arms and legs, and large air outlet panel on back
- 3D air-mesh lining on the back to allow air circulation under back protector
- Velcro and press studs for width adjustment
- Wide, easily adjustable leg openings
- Jacket: Six front pockets (two waterproof), one large and one small pocket on the lower back, two zipped inner pockets
- Easy-access TrinkPak Hydra pouch
- Four trouser pockets
- Reflective material on the sleeves, back and trousers

**ENDUROGUARD SUIT**

**Women's and men's**

With the EnduroGuard suit you are always prepared, whatever the weather. This professional enduro suit is the pinnacle of performance and practicality. The specially developed outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print) offers the highest levels of abrasion resistance. The three-layer laminate with BMW Climate Membrane offers perfect temperature regulation in this breathable, windproof and waterproof suit. A variety of ventilation zips and other clever details help create a bona fide 'comfort zone' for the rider even at warmer temperatures.

- Latest-generation off-road suit, waterproof
- Highly abrasion-resistant outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print), developed by BMW in partnership with Schoeller Textil AG.
- Three-layer laminate with BMW Climate Membrane: windproof, waterproof and highly breathable
- NP2 protectors at back, shoulders, elbows, hips and knees (freely height-adjustable)
- Coccyx protector retrofittable
- Unparalleled all-round ventilation thanks to a variety of vents; double front zip serves as an air vent
- Mesh lining in jacket and trousers, plus 3D mesh lining in back; breathable and elastic
- Eight jacket pockets, seven of which are waterproof, men's jacket with an additional chest pocket, three trouser pockets, incl. one key case
- Wide sleeves and trouser cuffs feature a windbreaker for optimum protection in inclement weather
- Integrated windbreaker in jacket offers effective protection against the wind and rain
- Waterproof storm hood integrated into the collar
- Leather on insides of knees for a firm grip on the tank when you're riding off-road
- Velcro fasteners and press studs offer adjustable widths
- Reflective print on jacket
- Connector zip: 40 cm (all-around)
- Comfort fit
- CE-certified

## ATLANTIS SUIT

## Women's and men's

This premium touring suit made from high-quality leather offers comfort and protection for year-round motorcycling. The breathable nubuck cowhide leather boasts incredible abrasion resistance and waterproofing, offering maximum comfort and temperature regulation even over long distances.

- All-weather touring suit made of high-quality nubuck cowhide leather
- Highly abrasion-resistant, full-grain cowhide leather (thickness 1.2 – 1.4 mm), significantly hydrophobic and water-repellent (not waterproof because no membrane is used)
- NP2 protectors on shoulders, elbows, hips and knees (adjustable to three different heights)
- Removable NP Pro back protector
- Coccyx protector retrofittable
- Naturally breathing leather regulates body temperature and moisture extremely effectively.
- Taped, watertight seams and rubber-lined, waterproof zip fasteners prevent unwanted water penetration.
- Waterproof membrane flap under the jacket's front zip, combined with a second, inner zip
- Waterproofing offered by membrane fabric behind the trouser fly helps to prevent water penetration.
- Loops on trousers for attaching optional braces
- Stretch zones at the shoulders, back and above the knee, as well as at the rear trouser waistband
- Adjustable at waist, arm and trouser cuffs
- Two zipped outer pockets on both the jacket and trousers, two zipped inner pockets in the jacket
- Sleeve cuffs feature two zips, which allow you to wear gloves either inside or outside the suit (the second zip can be left open when wearing gloves inside the suit).
- Grey reflective print on shoulders
- Connector zip: 40 cm (all-around)
- CE-certified

## ROADSTER SUIT

## Men

The Roadster men's suit, made of highly fall- and abrasion-resistant nappa leather combines excellent wearing comfort with a safety package. A high proportion of elastic textile and leather stretch inserts in the shoulder, sleeve and knee areas guarantee optimum freedom of movement in any seating position.

- Sporty leather two-piece suit
- 100% cowhide nappa leather (approx. 1.3 mm)
- Removable NP Pro back protector
- NP2 protectors, removable, on hips, fixed protectors on the shoulders, elbows and knees
- Knee sliders, retrofittable
- 3D spacer fabric on the back for good air circulation
- Stretch-leather inserts for maximum comfort at shoulder, sleeve, kidney and knee zones
- Kevlar stretch inserts for optimised fit and freedom of movement for arms and legs
- Highly elastic lycra lining on areas subject to a lot of movement
- Soft neoprene-edged collar
- Cuffs on arms and legs made of Kevlar stretch material
- Trouser waistband made of stretch fabric
- Two outside pockets and two inside pockets on the jacket
- All seams are safety seams stitched with safety thread
- Connector zip (all-around)
- Regular fit
- CE-certified

**DARKNITE SUIT****Women's and men's**

A modern leather suit cut in a classic style, the DarkNite suit offers the purest riding experience. Made with high-quality, unsealed cowhide leather, each suit retains its natural authenticity and boasts a unique patina. Additions, such as removable NPL and NP2 protectors, padded inserts and more, mean you can ride in confidence – without sacrificing the jacket's classic styling.

- Modern suit made of high-quality cowhide leather
- Abrasion-resistant, natural full-grain cowhide leather (1.0–1.1 mm)
- Water-repellent, but not waterproof
- Naturally breathable leather regulates body temperature and moisture effectively
- NPL protectors at the back, shoulders, elbows and knees (freely height-adjustable), NP2 protectors at hips (removable)
- Stretch fabric at the back, above the knee and on the rear trouser waistband for optimum freedom of movement
- Padded inserts at the collar and shoulders
- Jacket waistband and women's trousers adjustable using press stud fastener
- Sleeve and trouser cuffs feature metal zips
- Stand-up collar closable with press stud
- Three zipped outer jacket pockets, three inner pockets (incl. a smartphone pocket), four trouser pockets (zipped back pockets)
- Premium metal BMW Motorrad lettering on back, embossed BMW logotype on the left upper arm
- Cotton lining at the chest and back with large print on the back, mesh lining in the sleeves and trousers
- Connector zip: 40 cm
- Regular fit
- CE-certified

## Men

With the men's ProRace suit you communicated sporty biker ambitions. This close-fitting tailored single-piece suit made of nappa leather offers a complete safety package with protectors in the shoulder, back, elbow, hip and knee areas. A hump optimises the aerodynamics; stretch inserts guarantee freedom of movement.

- Tailored cut, sporty leather one-piece suit in BMW Motorrad M sport colours
- Highly abrasion-resistant cowhide nappa leather, approx. 1.3 mm
- Protectors on the shoulders, elbows, hips and knees, permanently sewn in
- Long NP Pro back protector, retrofittable
- Aerodynamic hump
- Knee sliders and sliders on the underarms and on the shoulders
- 3D spacer fabric on the back for good air circulation
- Numerous stretch inserts for maximum comfort and freedom of movement
- Perforated leather on the chest, back and thighs for excellent ventilation
- Long front zip, so suit is easy to put on and take off
- Arm and leg closure with zip fastener
- 1 inside pocket
- CE-certified
- Optional: custom production as well as individualisation with regard to the leather, colour and design

## PRORACE MADE-TO-MEASURE SUIT\*

## Men

The ProRace suit can also be made-to-measure. Use the configurator to design the suit to match your personal demands and preferences. Tight fit and many individualisation options in terms of colour and equipment – that's how you set yourself apart from the rest. Each suit is unique – and as individual as the rider that wears it.

- Made-to-measure for perfect fit
- Highly abrasion-resistant cowhide nappa leather or optionally available in kangaroo leather at surcharge
- Different colour options

- Different options for knee sliders (with/without) and sliders on elbows and shoulders
- Options for additional equipment details (partly subject to surcharge): with/without TrinkPak in hump, variants for perforation, with/without chest protector, standard foam or Vibram VPOD thermal foam
- Can be individualised with name/nickname and personal logo
- Selection between different logo options (colour of BMW Motorrad inscription, with/without Race inscription, on the hump either BMW logo, M logo or model inscriptions, e.g. RR)

- Configured at BMW Motorrad authorised workshop or directly online in configurator
- CE-certified
- Find out more at [bmw-motorrad.com/ProRace](https://www.bmw-motorrad.com/ProRace)

## PUREXCURSION JACKET

NEW

## Men

The PureXcursion jacket for men is as robust and hard-wearing as its adventure look promises, thanks to a cotton/polyamide blend with a wax finish. It has two waterproof pockets on the front and a large pocket on the back, in which the separately available inner rain jacket can be stowed perfectly when not in use.

- Robust jacket in adventure look
- Cotton/polyamide blend with wax finish
- Two waterproof front pockets, one large back pocket
- Inner rain jacket available separately
- Stretch on shoulders and sleeves for perfect freedom of movement
- Back and chest ventilation for a pleasant body temperature
- Integrated NPL protectors
- CE-certified

**TOKYO JACKET**

**Men**

A dirt- and water-resistant outer, as well as the AirVent system integrated into the front, makes the Tokyo jacket ideal for the daily commute – even in summer. It also comes with NPL protectors at the shoulders and elbows.

- Lightweight men's commuter jacket for summer temperatures
- Polyester upper, dirt- and water-resistant finish
- Lightweight, removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Additional two-way front zip with mesh inner serves as an air vent
- Magnet closure at the collar
- Adjustable press-stud sleeve and waist
- Four outer pockets (two with zips, two with press studs), three inner pockets (incl. one for your smartphone)
- Extra: waterproof pouch in jacket pocket (e.g. for smartphone or wallet)
- Subtle reflective print on sleeves and neck
- Connector zip: 40 cm
- Regular fit
- CE-certified

**RACEFLOW JACKET**

**Men**

All kitted out for summer thanks to the sporty RaceFlow men's textile jacket. Its high proportion of air-permeable mesh material ensures perfect ventilation of the torso and arms, even on hot days. The waist width is adjustable using two press studs. The standard equipment includes protectors at the shoulders and elbows.

- Sporty textile jacket for hot days
- Abrasion-resistant shell material with large insert of mesh material
- Double material thickness where susceptible in a fall
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Breathable 3D spacer fabric in back for optimum air circulation
- Two zippered side pockets on the outside, two inner pockets
- Stylish stand-up collar with a press stud closure
- Waist adjustable with two press studs
- Sleeve vent with zip and stud fastener
- Connector zip: 40 cm
- Regular fit

## AIRSHELL JACKET

**Women's and men's**

Be prepared whatever the weather with the AirShell jacket. Thanks to the breathable, windproof and waterproof BMW Climate Membrane insert and the removable padded thermal vest, it can be worn all year round. Keep things light and airy at the height of summer, and warm and dry in the cooler months.

- Lightweight motorcycling jacket in eye-catching neon yellow to ensure optimum visibility in city traffic
- Highly abrasion-resistant material blend: highly abrasion-resistant, colour-fast polyamide/polyester blend
- Removable NPL protectors at the shoulders, elbows and back
- Windproof, waterproof and breathable insert with BMW Climate Membrane and a removable padded thermal vest
- Large, air-permeable mesh inserts made from abrasion-resistant AirTex
- 3D lining at the back for optimum air circulation
- Two zipped side pockets, one waterproof inner pocket, one pocket in insert
- Stud fasteners at waistband and Velcro straps on adjustable sleeve cuffs and collar
- Reflective print on arms and shoulder area
- Collar closure trimmed in faux suede
- Connector zip: 40 cm
- Regular fit
- CE-certified

## BOULDER JACKET

**Men**

Whether in the spring, summer or autumn, and whether for the everyday or any other day, if you need a casual jacket, look no further than the Boulder. Its air vent system ensures proper air circulation, and if the weather takes a turn for the worse, its removable insert also provides effective protection against the wind and rain.

- Short, casual jacket for the urban environment
- Abrasion-resistant polyester/cotton blend with water-repellent wax finish
- Lightweight, removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Breathable, wind and waterproof removable insert with BMW Climate Membrane
- Dirt- and water-resistant finish
- Double front zip with mesh inner serves as an air vent
- Freely adjustable collar and sleeves
- Two zipped side pockets, two chest pockets, two inside pockets (one of which is waterproof), one waterproof pocket in insert
- Best paired with the Ride quilted jacket
- Reflective print in the neck area, reflective BMW Motorrad lettering printed in Anthracite
- Collar closure trimmed in faux suede
- Connector zip: 40 cm
- Comfort fit
- CE-certified

## DOWNTOWN JACKET

## Women's and men's

You're all business until the clock hits five-thirty. After that the bike is the only company you need. And this half-length, two-in-one parka-style jacket will help you make the perfect getaway. You can wear it comfortably over another jacket or suit as a handy protective layer. This makes it the ideal companion for anyone who commutes to work on their bike.

- Waterproof half-length parka-style jacket for city and business wear
- Lightweight, elastic, abrasion-resistant polyester outer
- BMW Climate Membrane (windproof, waterproof and breathable)
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Press-stud sleeve, waist adjustable using back belt
- Two waterproof zipped pockets
- Double-thickness sleeve
- Two zipped inner pockets
- Colour-matches lining
- Fashionable collar accessory
- Discreet reflective sleeve insert
- Connector zip: 40 cm
- Regular fit
- CE-certified

## SANDIEGO JACKET

## Women's and men's

Ride with style this summer – in a classic mix of waxed fabric and abrasion-resistant leather. You can even remove the shoulder and elbow protectors to wear it as a casual jacket around town. It's incredibly comfortable, with enough pockets for all your bits and pieces. Perfect for everyday use.

- Relaxed-cut motorcycle and leisure jacket for men and women
- Straight, hip-length fit for men; shorter tailored fit for women
- 1.0 to 1.2-mm abrasion-resistant cowhide sleeves and shoulders, with a slightly used look
- Rest of jacket is hard-wearing waxed fabric
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Inner zip on waist hem lets you remove shoulder and back protectors.
- Full-length metal front zip
- Multiple chest and side pockets with zips
- Double-thickness fabric on back
- Intricate lining with 'Make Life a Ride' printed in large letters on the back; two inner pockets and one smartphone pocket
- Zip and stud fastener at the wrist
- Lapel collar closable with press stud
- Connector zip: 40 cm
- Regular fit
- CE-certified

## CLUB LEATHER JACKET

## Women's and men's

This sporty, modern Club leather jacket for men is suitable both as a motorcycle jacket and for leisure wear due to its casual style. It is made of high-quality abrasion-resistant cowhide and impresses with its excellent wearing comfort. Below the stylish surface, protectors are concealed at the shoulders and elbows. A back protector is retrofittable.

- Motorcycling and casual leather jacket
- Wear-resistant soft cowhide leather (approximately 1–1.2 mm thick), lightly waxed and tumbled
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- High collar with attractive and functional workmanship, can be closed with press stud.
- Silhouetting blue and red leather highlighters on the shoulders and sleeves
- Full-length metal front zip
- Four or three zippered outside pockets (men and women) as well as two inside pockets and a smartphone pocket
- The "1978" inscription – the birth year of BMW Motorrad rider's equipment – is on the lining as a print and as embossing on the sleeve.
- Connector zip: 40 cm
- Regular fit
- CE-certified

**BLACKLEATHER JACKET**

**Women's and men's**

Laid-back style and effective protection don't have to be mutually exclusive. Because the fashionable BlackLeather jacket – with its abrasion and tear-resistant, water buffalo leather outer and protectors for the shoulders and elbows – offers all the protection you need for safe motorcycling, and ensures that wherever you go, you'll always look the part.

- Leather jacket with worn finish, relaxed fit
- Abrasion and tear-resistant water buffalo leather, approx. 1.0–1.2 mm
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Padded inserts on shoulders, upper arms and sides
- Waist adjustable with stud fastener
- Stand-up collar closable with press stud
- Zip at the wrist
- Two outer side pockets, one chest pocket (men), two inner pockets
- Unpolished metal zip with an antique look
- Large 'Ride Wild' print on the back lining

## CITY TROUSERS

**Women's and men's**

Airy yet lightweight, these relaxed-cut cotton trousers offer maximum protection in the city. The NPL protectors are removable from the outside, so these robust motorcycling trousers can be transformed into cool, oh-so-comfy casual wear in no time.

- Summer motorcycling trousers
- For use on and off the bike
- Abrasion-resistant blend of cotton and Cordura
- Relaxed fit with preshaped knees
- Separate men's and women's versions
- Height-adjustable NPL knee protectors, removable from the outside for a quick change from motorcycle to leisure trousers
- Removable NP2 hip protectors
- Multiple large and small pockets; one zippered in men's version, two in women's version

## RIDE JEANS

## Women

## Men

**Women's and men's**

These Ride jeans are fully fledged casual motorcycling trousers with five-pocket styling. They offer enhanced abrasion resistance thanks to the carefully selected material blend and integrated Kevlar inserts in vulnerable spots. Riders can quickly and easily remove the knee protectors from the outside, turning the trousers into casual jeans for everyday wear.

- Stylish five-pocket motorcycling jeans
- For use on and off the bike
- Abrasion-resistant blend of cotton, polyester and CORDURA
- Kevlar inserts for enhanced abrasion resistance in the seat and at the hips, and on the sides of the upper thighs and knees; invisible from the outside
- Freely height-adjustable NPL knee protectors, removable from the outside for a quick change from motorcycle to leisure trousers
- Removable NP2 hip protectors
- Separate men and women's versions (men: straight-cut, women: slim-fit)
- Leather label on waistband featuring BMW Motorrad lettering and embossed with 'engineered in Germany'
- 'Make Life a Ride' print on the inner waistband
- Connector zip: 40cm
- Regular fit

# BOOTS / SNEAKERS

Even the longest of rides eventually comes to an end. But there's no reason you can't still go for a stroll around the city. This is why BMW Motorrad designs stylish, street-ready boots and practical sneakers that make zero compromises when it comes to comfort and safety. Meanwhile, those who favour a sportier look are sure to love the ProRace leather boots.

## PRORACE BOOTS

**Unisex**

Waterproof, breathable ProRace boots not only impress with their Race look, but also with many practical details. Among other features, they offer side and heel guards, a gearshift lever protector, and soft suede leather on the inside of the bootleg for the best possible contact with the motorcycle. The insole is removable and washable.

- Sporty stylish boots with side and heel plastic sliders
- Replaceable side sliders, inserted and fixed with a screw
- Lightweight, touring-suitable entry-level boots
- Upper: synthetic leather, with napped leather inner (cowhide)

- Waterproof, windproof and incredibly breathable thanks to the BMW Climate Membrane
- Form-fitting shin guard
- Interior reinforcement at toes
- Shock absorbers at heel
- Shift-lever guard made of soft PU
- Boot leg liner of soft napped leather ensures better contact to the motorcycle.
- Easier pulling on and off as well as individual adjustment at the foot by means of zip fastener with elastic band on the inside of upper
- Generous adjustment to a neat fit on the calf, thanks to wide Velcro surface
- Stretch zones at the instep and heel
- Anti-slip rubber treaded sole

- Washable insole, removable
- Functional liner, perforated in the boot leg
- Loop to help carrying
- Large RACE inscription on the shin guard
- Shaft height at back approx. 28 cm for size 42

## VENTURE GRIP BOOTS

**Unisex**

A year-round boot that combines all the best features for touring and enduro riding is an absolute must-have. This allrounder made of full-grain cowhide leather comes with non-slip soles and a host of carefully designed safety features.

- Sleek, waterproof leather enduro boot for everyday use
- Comfortable and robust, suitable for touring
- High wear resistance
- Classic enduro style with buckles, dashes of colour on the soles, a taller shaft and oiled leather
- 100% full-grain cowhide leather, oiled
- BMW Climate Membrane (windproof, waterproof and highly breathable)

- Impact-absorbing shin guards, thermally formed and stiffened
- Plastic, foam-padded ankle protector
- Moulded reinforcements around gear-shift area on both sides
- Suede leather inner shaft for improved grip when standing
- Three adjustable quick-release fasteners with high-quality clasps
- Velcro panel for free calf width adjustment
- Stretch leather at the arch and instep for improved mobility when walking and changing gear
- Robust outer sole with high torsional resistance
- Extremely thick tread for better traction off-road

- Removable antibacterial inner sole
- Elasticated at top of shaft to help keep out water and dirt
- Front closure, soft padding on the shin
- Shaft height at back approx. 36 cm for size 42

ROCKSTER BOOTS

Unisex

Rockster boots offer the protection of a motorcycle boot, without this being apparent by looking at them. A special hydrophobic treatment ensures the cowhide leather is both water-repellent and breathable. A trendy design makes the boots perfect for everyday wear, too.

- Stylish boots: cool, comfortable and safe
- Suitable for all-day use, both on and off the bike
- 100% cowhide leather (approx. 1.6–1.8 mm), waterproofed
- Leather mix of oiled smooth leather and suede on the shaft
- Heel and toe reinforced
- Reinforced in gear-shift area (left)
- Easy to put on thanks to long zips
- Functional, leather-look lining, quick-drying and breathable
- Smooth leather boot trim
- Tough rubber tread

- Form-fitting, removable and washable insole that wicks moisture and absorbs impacts
- Short, decorative buckle with metal closure
- Shaft height at back approx. 23 cm for size 43
- CE-certified according to DIN EN 13634

URBAN BOOTS

Women's and men's

Everything you need in a short-shaft motorcycling boot. Special water-proofing treatment ensures the cowhide leather is both water-repellent and breathable. The boot is reinforced at the heels and toes, and features elastic material around the ankle for added comfort.

- Sturdy, short-shaft boot
- 100% nubuk cowhide leather (approx. 1.6–1.8 mm), hydrophobic, seams sealed with natural latex
- PU shin and ankle protector with generous foam padding
- Reinforcements at heel and toes
- Lined zip closure to prevent water leakage
- Short Velcro strap closure
- Stretch material around the ankle for increased comfort
- Easy-on pull tab at the rear
- Functional lining, quick-drying and breathable
- Calfskin boot shaft collar
- Tough rubber tread

**DRY SNEAKERS****Unisex**

The half-height Dry sneakers are the casual shoes for short trips into town, in virtually any kind of weather. After all, they are wind- and waterproof, and breathable thanks to the BMW Climate Membrane. The upper material is suede leather. Safety is ensured by ankle protectors and reinforcements in the toe and heel areas.

- Half-height sneaker; waterproof, windproof and breathable
- Material 100% roughened leather; embossed or waxed in places
- BMW Climate Membrane as liner
- Formed plastic outer reinforcement on heel with integrated reflective markings
- Interior-reinforced heels and toecaps
- Ankle protection with rounded plastic shell and gel pad inside
- Half-height shaft with inner zip for quick removal
- Additional front lacing to adjust width
- Shaft height at back approx. 16 cm in size 42 boots
- Leather lace cover embossed with BMW logo
- Lightly treaded rubber sole with Boxer motif
- Brightly coloured 3D air mesh performance lining for comfort and ventilation
- Insole removable

Sometimes even motorcycle riders want to wander through the urban landscape on foot – preferably in lightweight sneakers made of high-quality cowhide leather that look as cool with jeans as they do with motorcycling gear. Reinforcements, protectors and extra padding in the gear-shift area offer all the safety you need on the bike.

- High-quality leather sneakers for the city and short trips
- 100% fine, lightweight cowhide leather
- Suitable for warm summer and humid climates
- Lightweight and incredibly breathable thanks to perforated velour leather on the sides
- Added moulded protection at the heel
- Reinforced in gear-shift area
- Interior-reinforced heels and toecaps
- Reflective material on the sides and at the heel for added safety when driving at night
- Half-height shaft with inner zip for quick removal
- Lacing to adjust width
- Leather-trimmed laces
- Shaft height at back approx. 16 cm in size 43 boots
- Rubber sole with Boxer motif
- Practical 3D air mesh lining for breathability
- Removable BMW Motorrad-branded inner sole

# GLOVES

Hands need the best possible protection at all times. BMW Motorrad offers wind and waterproof gloves, reinforced on the sides and at the ball of the hand, to ensure a firm grip in all conditions. There's no compromise on comfort, either: the Two-in-One glove, for example, comes with multi-purpose two-chamber technology and touchscreen-compatible fingertips.

**TWO-IN-ONE TECH GLOVES**

NEW

**Unisex**

2-in-1 features for greater comfort while touring: the sporty Two in One gloves with twin-chamber technology have a lot to offer. While the first chamber is unlined and offers excellent grip with kangaroo leather, the waterproof second chamber with a breathable GORE-TEX® membrane offers complete protection from the elements.

- Sporty GORE-TEX® gloves with 2-in-1 technology.
- Option of changing between chambers depending on weather conditions.
- Wiper lip on left index finger. The tips of the index finger and thumb can be used to operate touchscreen devices.
- Colour markings make it easy to put on and take off
- CE-certified according to DIN EN 13594

**ENDUROGUARD GLOVES**

**Unisex**

The multifunctional enduro glove with twin-chamber technology is truly unique, allowing riders to easily switch chambers when weather conditions change. The PROOF moisture protection chamber is breathable, windproof and waterproof, with a lining for thermal insulation. The GRIP chamber features wafer-thin, abrasion-resistant kangaroo leather for a crease-free, tactile fit.

- Enduro gloves with twin-chamber technology, allowing riders to switch chambers when weather conditions change
- PROOF upper chamber is breathable, waterproof and windproof thanks to GORE-TEX® 2-in-1 technology with a lightweight, insulating pique jersey lining
- GRIP lower chamber made of highly abrasion-resistant kangaroo leather (approx. 0.7 mm), unlined and perforated for maximum grip
- Back of hand: blend of soft cowhide leather and Schoeller Dynatec
- Highly abrasion-resistant ceraspace print on the knuckle protectors and ball of the hand
- Double-thickness leather on edge of hand
- Plastic hard shell knuckle protector with impact-absorbing foam padding
- Lightweight foam on finger backs and back of the hand
- Touchscreen-compatible index finger and thumb tips
- Rubber wiper lip on left index finger
- Mid-length cuff with Velcro width adjustment
- Reflective material on the outside
- Special seams prevent pressure points on the fingers and palm of the hand
- CE-certified according to DIN EN 13594

PRORACE GLOVES

**Unisex**

ProRace gloves are ideally suitable for sporty bikers who value extreme freedom of movement, enhanced safety and a direct grip experience during fast riding. They are partially protected by Temperfoam and feature palms made of kangaroo leather, and upper hands made of goat leather with stretch zones.

- Summer sports gloves
- 100% leather
- All details are designed for sporty riding
- Palm of hand made of hard-wearing kangaroo leather, double thickness in places
- Back of hand made of goatskin with elastic stretch zones
- Pleasantly breathable thanks to perforations
- BMW Motorrad hard shell with memory foam underlay
- Short cuff with hoop and loop fastener
- Special seams on the palm prevent pressure points at the fingers
- Lower hand not lined
- Colour scheme matching BMW Sport motorcycles

## ATLANTIS GLOVES

**Unisex**

These waterproof leather gloves really come into their own in spring and autumn temperatures. The robust suede cowhide upper and breathable GORE-TEX® Gore Grip membrane complement the aesthetics of the Atlantis suit, making the glove perfect for fun-filled touring.

- Leather touring glove for spring and autumn
- Back of hand made of suede cowhide, palm of goatskin nappa leather, both hydrophobic
- Double-thickness leather in vulnerable areas, Kepron padding at the ball of the hand
- Shock-absorbing memory foam on fingers and knuckles
- GORE-TEX® gloves with Gore Grip technology are 100% windproof, waterproof and breathable, offering excellent grip and a tactile fit.
- Slim fit, can be worn over or under sleeve

- Touchscreen-friendly thumb and index finger
- Rubber wiper lip on left index finger

## PROWINTER GLOVES

**Unisex**

We warmly recommend these windproof and waterproof GORE-TEX® winter gloves, which hold their own even in the coldest, wettest weather thanks to their Thinsulate padding and soft fleece lining. The long neoprene cuff and specially developed finger construction also help to prevent chilly hands.

- Highly insulating waterproof winter gloves
- Palm: hydrophobic goatskin, double thickness on ball of hand and grip area of thumb
- Back: high-tech elastic Nyspan for maximum comfort
- Windproof, waterproof and breathable with GORE-TEX® membrane
- Insulating Thinsulate padding with added aluminium laminate on the back
- Lining made of brushed synthetic fibre (palm) and teddy fleece (back)
- High-tech, impact-resistant and energy-absorbing knuckle shells
- Touchscreen-compatible fingertips
- Rubber wiper lip on left index finger, suede wiping surface on left thumb
- Reflective strips on edge and on little finger

HIGH VIZ VEST

Unisex

The sleeveless HighViz vest is designed for particularly safety-conscious riders. Its neon yellow colour and reflective applications on the chest and back considerably improve the rider's visibility. And because the vest is close-fitting, it does not flutter in the wind. The vest can be worn with any BMW Motorrad jacket.

- Bright yellow vest made of air-permeable polyester
- Standards-compliant and stylistically highlighted silver reflective application on the chest and back
- Excellent visibility in all weather conditions
- Close, flutter-free fit
- Matches all BMW Motorrad jackets
- Certified to EN 1150

COOL DOWN VEST

Unisex

This revolutionary functional vest uses evaporation to cool riders. When the vest is wet or damp, the HyperKewl system locks in the moisture and stores it for up to eight hours, providing a 6 to 12°C temperature reduction for the wearer. It also keeps clothes dry.

- A cooling vest with HyperKewl functional fabric at the front and back
- Constant cooling effect through evaporation
- Outer material: nylon and polyester functional fibre
- Stretchy side sections made of mesh
- Front zip

HEATUP VEST

Unisex

This lightweight heated vest can be worn under all BMW Motorrad jackets and provides a pleasant warmth during cooler times of the year. The heating elements are positioned according to the specific needs of the rider, while the vest's settings can be adjusted via the optional controller\*.

- Heated polyester vest with slim-cut fit
- Breathable, moisture-wicking and windproof
- Five heating elements located in the chest, back and kidney areas
- Maximum heat output 35W at 12V
- Optional three-step controller available for heat-output regulation
- Plugs into on-board socket
- Lightweight fleece lining for optimum insulation
- High, insulating collar
- One inside pocket
- Parallel operation of 2 heating vests on the K1600 models possible with optional Y-cable

**RIDE QUILTED JACKET**

**Women's and men's**

The breathable Ride quilting jacket is especially thin, meaning it can be worn under all BMW Motorrad jackets. Thanks to the stylish, slim-fit design, it can also be worn by itself.

- Practical quilted jacket, thin and lightweight, comfortably warm, breathable
- Can be worn alone or with any Motorrad motorcycling jacket
- Polyamide upper
- Thin quilting with PrimaLoft (80 g), double-thickness at elbows and shoulders
- Soft shell stretch inserts at the side for a good fit
- Loop at collar to attach to motorcycling jacket
- Zip at the lower back allows you to use the 40-cm connector zip on motorcycling jackets and trousers
- Water stop on the bottom hem and collar to avoid a suction effect in wet weather
- Close-fitting collar for maximum comfort
- Two zipped outer pockets, PackAway inner pocket (small pack size)
- Biker look with quilting at elbows and shoulders
- Figure-hugging cut, women's jacket features additional tapering at the waist
- Regular fit

PCM JACKET

**Unisex**

Whatever the mercurial spring and autumn weather brings, this jacket's innovative phase change material will keep you warm, dry and comfortable. The multifunctional jacket can not only be worn underneath any motorcycling jacket – its removable sleeves mean it can also be worn by itself as a vest.

- Highly functional mid-layer that can be worn both on and off the bike
- Blend of soft shell, stretch and Schoeller PCM fabrics
- Schoeller PCM: active temperature regulation and dynamic climate control
- Graphical material description on the left pocket pouch (inner)
- Removable sleeves offer the perfect fit, by itself or as a vest under a motorcycling jacket
- Two zipped outer pockets on sides
- Opening at the lower back allows you to use the 40-cm connector zip on motorcycling jackets and trousers

## RAINLOCK WET-WEATHER SUIT

**Unisex**

There's no such thing as braving the rain with this two-piece wet-weather suit – it comes into its own when the heavens open. The windproof and waterproof material is heat-resistant at the inner leg and anti-slip at the seat, which makes it the ideal protective gear for any eventuality.

- Two-piece rain suit, windproof and waterproof
- 100% nylon with waterproof PU coating
- Non-slip material on seat; heat-resistant material on inner leg
- Adjustable hood in collar (removable)
- Front jacket zip with waterproof labyrinth design
- Rubber-lined jacket seams to prevent the jacket from riding up
- Jacket seam fitted with a pull-cord for width adjustment
- Large arm openings make it easy to put on and remove gloves
- Trousers with elastic waistband
- Long leg zips make the trousers easy to put on, lined with pleated material to help prevent water leakage
- Velcro at the arm and leg cuffs
- Two outer jacket pockets with eyelets for water drainage, one waterproof inside pocket
- Reflective print on legs, arms, back and chest

SUMMER FUNCTIONAL UNDERWEAR

Women's and men's

Recreate the refreshing cool breeze of the oncoming wind – without the actual wind – with this highly breathable functional underwear made of polypropylene. Seamless and reinforced especially for motorcycling use, the underwear is made from an odour-inhibiting material blend that offers maximum comfort on warm summer days.

- Functional underwear suitable for warm summer temperatures
- Practical material blend of recycled polyamide and polyester
- Highly breathable, moisture-wicking, fast-drying, highly elastic and easy-care
- Odour-inhibiting, antimicrobial silver inweave
- Seamless and close-fitting, designed for motorcycle use
- Extremely pleasant and cool to wear, soft to the touch
- Women's collection includes a long-sleeved shirt, t-shirt, top and 3/4-length trousers
- Men's collection includes a long-sleeved shirt, t-shirt, shorts and 3/4-length trousers
- All items available separately
- High-quality, lively jacquard motorcycling motifs on front of top
- Knitted BMW Motorrad logotype

## BACK PROTECTOR

**Unisex**

The back protector reduces the risk of injury to the spinal column, shoulders and kidney area. After buckling it on, the rider wears the protector underneath their motorcycle jacket. It is particularly lightweight and breathable. Body heat then ensures a perfect fit, as if it were tailor made.

- Strap-on protector with integrated, freely adjustable kidney belt
- Optimum protection reduces the risk of injury

- Innovative Cross protector by KOMPERDELL on back: flexible multi-layer and multi-chamber design, supple fit thanks to Dual-Density foam, breathable and lightweight.
- Upper: blended fabric made of polyester and elastane
- Ergonomically shaped shoulder straps, padded and height-adjustable; with integrated press studs for retrofitting the BMW Motorrad chest protector
- High breathability due to generous perforation

- Good impact absorption properties
- Amply sized shielding for the spinal column, the shoulder-blades and the kidney area
- Very light in weight
- Back protector certified as per DIN 1621-2, Level 2.

**Colour:**  
Black/yellow

**Sizes:**  
S-XL

**Price:**  
Back protector

**£ 145.00**

## BACK PROTECTOR VEST

**Unisex**

The protector vest is a comfortable alternative to a back protector. Thanks to generous coverage of the spine, the shoulder and kidney area, and the chest, it demonstrably offers particularly effective protection against injuries. Body heat helps it to achieve an optimal fit, while remaining highly breathable.

- Vest with integrated Cross back and chest protector.
- Optimum protection reduces the risk of injury
- Outer material made of polyester and Lycra (tricot)
- Innovative Cross protectors from KOMPERDELL on back and chest: flexible multi-layer and multi-chamber design, supple fit thanks to Dual-Density foam, breathable and lightweight.
- High breathability due to generous perforation
- Good impact absorption properties
- Amply sized shielding for the spinal column, the shoulder-blades and kidney area, and the chest
- Side front zip fastener to easily put it on and take it off
- Rolled neckline and armhole due to double-layered design of the vest, making it especially comfortable and flexible
- Back protector certified as per DIN EN 1621-2, Level 2.
- Chest protector certified as per DIN EN 1621-3, Level 1.

# BAGS/ ACCESSORIES

Whatever the weather, there will always be riders out and about – which is why the right equipment is absolutely essential. No matter how rough the conditions, there's a suitable soft-luggage solution in the BMW Motorrad range. Take the watertight roll bag, for example. It attaches quickly and easily to every BMW motorcycle, and it's equally suitable for day trips or lengthy tours.

## FUNCTION RUCKSACK

An innovative rucksack with a partitioned main compartment. The bag has a maximum capacity of 30 litres, a waterproof inner pouch and a whole host of storage options. But the real pièce de résistance is the carry strap stored in the back that allows you to secure the rucksack directly to your motorcycle.

- High-quality motorcycling rucksack for touring
- Capacity: expandable from approx. 30 to 35 litres
- Upper: Made of hard-wearing tarpaulin and nylon
- Waterproof main compartment with laptop section (up to 15 inches)
- Can be expanded for helmet
- Four outer pockets, inner mesh compartment
- Divisible main compartment, lower section can be accessed separately
- Ergonomically shaped back section
- Adjustable shoulder straps (padded), waist strap (removable) and chest strap
- Travel-bag-style handle
- Fixing straps for additional luggage on outside
- Can be attached to a bike as a luggage roll

## SMALL FUNCTION RUCKSACK

The small Function rucksack is the perfect size for day trips and the daily commute. Rain showers are no problem for this bag thanks to its waterproof main compartment with an integrated laptop sleeve (up to 15"). The back of the Function rucksack also features a pouch for the TrinkPak Hydra.

- High-quality, functional rucksack
- Waterproof main compartment with roll closure, incl. laptop sleeve (up to 15") and small inner pocket
- Four external pockets, one of which is in the lid, featuring splash protection (zip fasteners with rubber seals)
- Pouch for the TrinkPak Hydra on the back (approx. 2 litres), closable with a press stud
- Mesh lining in the cover flap
- Ergonomically shaped back section
- Adjustable shoulder, chest and waist straps
- Carry straps on the front and top
- Reflective material on the shoulder straps, cover flap and front
- BMW Motorrad logotype on front
- Upper: water-resistant, easy-care polyester blend
- Inner lining: polyamide blend
- Weight approx. 550 grams
- Dimensions (HxWxD): approx. 40x30x16 cm
- Capacity: approx. 20 litres

## GIANT BAG

The sturdy travel bag (with a 90-litre capacity) offers more than enough room for all your gear. The two-part inner compartment features a helmet compartment, boot bag and elastic cross straps. A telescopic handle and low-friction castors make it the ideal mobile storage solution.

- Sturdy travel bag designed for motorcycle riders
- Approx. 90 litres, holds a complete set of rider equipment
- Hard-wearing outer material, reinforced back and base
- Lockable main compartment, interior divided into two
- Padded helmet compartment, foldaway partition

- Zippered outer compartment, two large compartments in lid
- Easy handling: lightweight, with low-friction castors and telescopic and carry handles
- Four compression straps
- Includes separate boot bag

**Colour:**

Grey/white/red/black

**Price:**

Giant Bag

£ 230.00

LUGGAGE ROLL

The waterproof luggage roll has a large opening, making it easy to pack whatever you might need to take with you. The small mesh outer pocket and waterproof zipped inner pockets provide space for less bulky items. Adjustable compression straps for volume adjustment. The luggage roll also comes with an adjustable and detachable shoulder strap plus a padded carry handle.

- Waterproof luggage roll
- Capacity: approx. 50 litres
- Outer: hard-wearing tarpaulin, textile-look base
- Removable, 3D-formed EVA base plate
- Large opening for easy packing
- Detachable shoulder strap, carry handle
- Includes adjustable straps with snaplock buckles for easy securing
- Reflective material on front and sides, BMW Motorrad reflective print

**Colour:**

**Price:**  
Softbag

**£ 140.00**

SMALL SOFTBAG

Need even more room? This 30-litre softbag can be expanded by an additional 5 litres. It has a watertight main compartment made of hard-wearing, easy-care material, and is easy to attach to the luggage grid or the pillion seat using the supplied fasteners.

- Rear bag made of flexible material
- Capacity: expandable from approx. 30 to 35 litres
- Waterproof main compartment, four water-resistant outer pockets.
- Tear-resistant, fabric-finish polyester
- Formed EVA on base and back
- Detachable shoulder strap, carry handle
- Easy attachment
- Retaining tabs, adjustable straps and snaplocks
- Large reflective areas on front and sides

**Colour:**  
Dark Grey

**Price:**  
Softbag

**£ 130.00**

LARGE SOFTBAG

The large, high-quality softbag has a waterproof 50-litre main compartment. Capacity can be expanded by up to 5 litres with patch pockets. The sturdy EVA base fits all BMW Motorrad models and includes a non-slip coating. With quick fastening system.

- Rear bag made of flexible material
- Capacity: expandable from approx. 50 to 55 litres
- Waterproof main compartment, four water-resistant outer pockets.
- Tear-resistant, fabric-finish polyester
- Formed EVA on base and back
- Detachable shoulder strap, carry handle
- Easy attachment
- Retaining tabs, adjustable straps and snaplocks
- Large reflective areas on front and sides

**Price:**  
Softbag

**£ 175.00**

MESSENGER BAG

Whether heading to work or riding around the city, this practical messenger bag made of durable canvas material will be your constant companion. Offering a generous 18-litre capacity with plenty of room for a 17" laptop and accessories, the bag is well-protected from the elements thanks to a waterproof main compartment with a roll closure.

- High-quality canvas messenger bag
- Stylish look with diagonal top edge
- Large, waterproof main compartment with roll closure
- Interior: 17-inch laptop compartment and bottle holder
- Two zipped outer pockets, DIN A4 at back, front with organizer (not waterproof)
- Decorative locking belt, metal closure with embossed BMW logo, choice of four buckles
- Adjustable, two-tone shoulder strap featuring woven BMW Motorrad logotype
- Additional carry handle
- Length-adjustable, removable waist strap to secure bag when riding
- BMW Motorrad logotype on back
- Dimensions (WxHxD): approx. 47x35x11 cm
- Capacity: approx. 18 litres.

**Colour:**  
Black

**Price:**  
Messenger bag

**£ 99.00**

RIDE HIPBAG

Perfect for day trips, the Ride HipBag offers plenty of room for your wallet, keys and more besides. A waterproof main compartment ensures rain doesn't dampen the fun.

- High-quality hip bag for day trips on and off the bike
- Waterproof main compartment with full-length two-way zip fastener
- Inner bag with a roll closure keeps the main compartment completely dry
- Small mesh bag (left) plus three small zipped outer pockets
- 3D mesh lining at the back for optimal air circulation
- Freely adjustable waist strap, carry handle
- Decorative reflective print (Boxer engine) on the front
- BMW Motorrad logotype on cover flap
- Functional outer material made from polyester with a fabric-look finish, water-resistant and easy-care
- Dimensions (HxWxD): approx. 18x20x11 cm
- Capacity: approx. 3 litres

GENUINE BMW CARE PRODUCTS\*

FROM LEFT TO RIGHT

**Motorcycle cleaner, 500 ml**

Quickly removes dirt of any kind by coating and permeating the affected area then gently dissolving the dirt particles.

**Wheel rim cleaner, 500 ml**

Effectively removes impurities like brake dust and dirt picked up from the street. The solution changes colour to indicate that it's working effectively.

**Insect remover, 500 ml**

Intensive cleaning agent that effortlessly removes stubborn encrusted insect remains and bird droppings. It is particularly protective of materials thanks to moisturising care components.

**Engine shine spray, 300 ml // NEW**

The engine shine spray from BMW Motorrad is a heat-resistant care product especially for engine and exhaust parts painted black. It serves to prevent discolouration and to refresh faded colours as well as already damaged black paintwork.

**Chain cleaner, 300 ml**

Quickly and easily removes abrasive substances such as chain lubricant, sand and street dirt from the chain and chain wheel.

**Chain spray, 300 ml**

A fully synthetic lubricant for drive chains on two-wheeled vehicles, and in particular for motorcycle chains with high rotational speed.

**Gloss polish, 250 ml**

A special polish made of high-quality natural ingredients for restoring a deep shine.

**Metal polish, 75 ml**

High-gloss polish and cleaner for aluminium, chrome, brass, nickel, stainless steel and other unpainted metals.

**Body + Bike shower gel, 250 ml**

The first shower gel for rider and bike. Gently cleanses and nourishes the skin. Dermatologically tested. Also suitable for motorcycling cleaning.

**BMW anti-fogging spray, 50 ml**

Uses anti-fogging additives to prevent the visor from misting up.

**Visor and helmet cleaner, 50 ml**

A deep but gentle cleaning agent for removing dirt from the helmet and visor without leaving scratches or other blemishes.

**Helmet pad cleaner, 300 ml**

Cleaning foam that removes dirt and stains from upholstery and leaves it smelling fresh.

**Functional washing detergent, 250 ml**

For high-quality BMW Motorrad clothing, outdoor apparel and sportswear, and microfibre fabrics. Especially suitable for suits with membrane technologies (as either laminate, liner or insert), which retain their water and wind-repellency and breathability even after multiple washes.

**Waterproofing agent for motorcycle clothing, 300 ml**

Water and oil-repellent, for large fabric surfaces made out of natural and synthetic fibres. The agent wraps the fibre in an invisible, hydrophobic monomolecular film.

**Price:**

Functional detergent, 250 ml	£ 9.80
Waterproofing agent, 300 ml	£ 11.50
Helmet-padding cleaner, 300 ml	£ 10.60
Visor and helmet cleaner, 50 ml	£ 6.20
Anti-fogging spray, 50 ml	£ 5.50
Body & Bike shower gel, 250 ml	£ 8.80
Motorcycle cleaning fluid, 500 ml	£ 7.20
Chain cleaner, 300 ml	£ 8.80
Chain spray, 300 ml	£ 10.70
Rim cleaner, 500 ml	£ 13.30
Insect remover, 500 ml	£ 8.80
Gloss polish, 250 ml	£ 8.80
Metal polish, 75 ml	£ 13.30
Gloss Spray	£ 17.40
Washbag	£ 44.30

\* Availability may vary depending on the country. Not every product is available in every country due to different import laws for chemical products.

TRINKPAK HYDRA

Get thirsty while speeding along the motorway? Give up the water bottle and go for this adaptable drinking system. Simply fill it with up to 2 litres of liquid, secure the lock mechanism, insert the tube via the Plug&Play connector and stow everything in your Rallye suit or a rucksack. Simply sip and ride!

- 2-litre drinking system with tube
- Pouch is quick and easy to clean: just turn it inside out
- Shape-Shift™ technology and inner zip keep the system in shape
- Flexible, hard-wearing 0.25 mm thermoplastic polyurethane
- Handy, large-width slide opening for ease of access
- Contains no bisphenol A or PVC
- Dishwasher-proof
- Capacity: 2l/70 fl oz

**Price:** £ 28.50

FUNCTION SUNGLASSES

These functional sunglasses developed especially for bikers guarantee flawless views along your entire route, thanks to their three, highly curved and interchangeable plastic lenses, which allow you to adapt your UV protection to the light and weather conditions.

- Stylish and lightweight performance sunglasses
- Interchangeable plastic lenses for different weather conditions:
  - Brown = high-contrast with an anti-fog coating
  - Grey = lightly reflective with a scratch-proof coating
  - Clear = anti-reflective, scratch-proof coating
- Dark-coloured glasses offer 100% UVA, UVB and UVC protection, even in bright sunlight
- Designed to fit comfortably inside your helmet
- Curved, close-fitting design fit provides slipstream protection
- Black plastic frame with Anthracite gummed-plastic inserts
- Soft plastic nose pads prevent pressure discomfort
- Includes BMW Motorrad-branded carry case and microfibre pouch

**Colour:**  
Black/anthracite

**Price:**  
Sunglasses

£ 84.50

## MIX AND MATCH / HOW TO WORK OUT YOUR SIZE

**Sizes of designs with all-round zips can be combined as follows:** (In other size combinations, only the 40 cm connector zip can be used – not the all-round zip.)

WOMEN		MEN	
Suits (excl. EnduroGuard)	EnduroGuard suit	Suits (excl. EnduroGuard)	EnduroGuard suit

42/44/21/22/84/88	46/48	56/58/27/28/114/118	60/62/30/31/118
46/48		60/62/29/30	64/66/32
		64/66/31/32	64/66/32

Ask your BMW Motorrad dealer for details on how to combine previous and new rider equipment.

### How to work out your size

It's very important that your motorcycle suit is a good fit, not least because if it's too tight or too loose, it can affect your concentration. And if you're distracted, this affects your safety on the road.

Jackets and trousers also have to sit right on the wearer. Your sleeves and trouser legs shouldn't ride up, because if they do, it's not just a safety issue – it also means you're not properly protected against the elements.

That's why the cut of all BMW Motorrad suits is specially designed for motorcycling use, and why they all feature plenty of expandable sections, opportunities for adjustment and other clever details. To make sure your suit is a perfect fit, all of its dimensions have to be exactly right. We know that riders come in many different body shapes, so our suits are available in over 40 different sizes.

To find the one that's right for you, grab your tape measure and follow these simple instructions.

#### A Height

Stand barefoot beside a door frame. Place a book on your head, and hold it in position. Mark the position of the book on the door frame and measure from the floor.

#### B Chest

Take this measurement while wearing a shirt or a lightweight pullover. Pass the tape measure under your arms and measure around the broadest part of your chest and over the shoulder blades.

#### C Waist

Measure around your shirt, just above the top of your trousers. Stand in a neutral position and don't hold in your stomach – that way you'll ensure the trousers sit comfortably.

#### D Hips

Measure around your body, above your trousers and the widest point of your hips.

#### E Side length

Measure the distance down to the outside of your leg, from the waist of your trousers to the sole of your foot.

#### F Step length

Measure the distance down the inside of your leg, from the crotch seam to the sole of your foot.

#### IMPORTANT:

These tables are intended as a guide. They show the body measurements on which the BMW Motorrad rider equipment collection is based.

#### BMW Motorrad offers two types of fit according to how each item is used by riders:

##### Comfort fit:

more generous cut offering greater freedom of movement

##### Regular fit:

closer fit to body form

**AirTex**

Made of resistant, net-like Dynafil, AirTex allows air to flow extremely freely, maintaining comfortable air circulation even at high temperatures. It is extremely light, yet offers all the safety you'd expect from a motorcycling jacket, and is ideal for hot-weather riding.

**Aniline leather**

Leather dyed exclusively with soluble pigments that are not layered with an overcoat or pigment coating, meaning the leather stays as breathable as it was on day one.

**Breathability**

Technically defined in terms of resistance to evaporating heat transfer (RET). The lower the RET, the more breathable the material.

**Azo dyes**

Azo dyes may not be used to dye outer materials, because they can break down into carcinogenic amines.

**Ventilation**

Select materials and systems are used to improve air circulation and temperature regulation.

Categories:

- 1 arrow: classical systems/zips to assist ventilation
- 2 arrows: specific materials used for improved ventilation
- 3 arrows: maximum ventilation

**BMW Climate Membrane**

A functional membrane that meets BMW standards and is breathable, waterproof and windproof.

**Carbon**

High-strength chemical fibre that is 30% lighter than glass fibre and superior in terms of safety performance.

**CE test mark**

The CE (Communauté Européenne) mark indicates that the product complies with European Union safety directives.

**ceraspace print**

ceraspace technology offers unparalleled protection thanks to its unique composition – a polymer matrix containing integrated ceramic particles. This specially developed ceramic is extremely durable and resistant to high temperatures. Selective 3D printing significantly enhances abrasion-resistance without impairing flexibility or breathability.

**coldblack**

Treatment for dark material that reflects the sunlight and protects against UV rays, keeping suits cooler for longer.

**CORDURA 500**

Nylon yarn consisting of 100% polyamide. The manufacturing process involves respinning and weaving the cut polyamide fibres. Their melting point is 210°C.

**Expanding pleats**

The outer material is sewn onto the stretch fabric in a corrugated form. This allows the material to stretch, while maintaining its tear-resistance.

**Design**

The characteristics of BMW design include the use of classic shapes and colours. Most important principle: form follows function.

**DuPont Coolmax**

DuPont Coolmax consists of hollow fibres which transport humidity to the outside very quickly by capillary action, making the material dry 50% faster than cotton.

**Dynafil**

A highly tear-resistant polyamide yarn that's even more robust than Cordura 500/700 and resistant to high temperatures.

**Dynatec**

Fabric made of Dynafil. Tear-resistant and extremely robust, its melting point is 290°C.

**Glass-fibre reinforced plastic (GFRP)/ carbon-fibre reinforced plastic (CFRP)**

The individual fibres (aramid, carbon, glass fibre) can be mixed in varying proportions as required. By changing the orientation and position of the fibres, different characteristics can be achieved – for example: low weight, high strength, high rigidity, low heat expansion, effective insulation and outstanding safety performance.

**GORE-TEX®**

A membrane made of teflon (polytetrafluorethylene). Countless microscopic pores prevent the penetration of large water droplets while allowing the much smaller water vapour molecules to pass through. The branch-like structure of the membrane means that it is also windproof.

**GORE-TEX® X-TRAFIT**

In this specially designed three-layer construction, the glove lining is securely bonded to the membrane, which is then bonded to the upper, guaranteeing the perfect fit and the best possible grip. This also prevents slippage, which means the gloves can be quickly and easily removed, even with sweaty hands.

**Hydrophobic treatment**

A treatment which renders leather water-resistant. BMW uses the vat immersion technique. During this process, only the leather fibres are coated to ensure the pores stay open and the leather remains breathable. Depending on use, dry cleaning ensures the garment maintains its waterproof performance over several years.

**HyperKewl system**

The HyperKewl water management system absorbs and stores moisture, then gradually releases it via evaporation. This has a cooling effect that reduces heat by 6 to 12 °C compared with the ambient temperature. This means the body stays cooler and is better able to perform in challenging conditions.

**Insert**

A removable membrane allowing a wide variety of uses in different climates. For protection, it is embedded in a very lightweight fabric on the top and bottom, and the first layer of the jacket will get wet if it rains.

**Full-face helmet**

A helmet that encloses the head completely.

**Open-face helmet**

An open-face helmet with no chin guard or visor.

**Kangaroo leather**

Boasting finer skin fibres, a tighter grain and denser skin structure, kangaroo leather outperforms cowhide leather in terms of abrasion and tear resistance.

**Keptec**

A blend of Kevlar and PA fibres, which enhances Kevlar's already excellent stretchability and abrasion resistance. Used to reinforce those areas most at risk in a fall, such as the elbows, shoulders, knees and thumbs.

**Laminate**

A layered structure of various materials created by thermal adhesion (the adhesive is usually applied in spots), and particularly suited for use with all-weather membranes. Can also take the form of a lining laminate or three-ply laminate, and does not always need to be thermally attached to the outer material.

**Leather**

Because all leathers are not equal, we only use the very best. With a minimum thickness of at least 1.2 mm for our suits, and often much more, they offer exceptional abrasion resistance as a result.

**Material strength**

The specific combination of materials and protectors used in each product determines its abrasion resistance, tear resistance, impact resistance and burst strength

Categories:

- 1 star: average
- 2 stars: good
- 3 stars: exceptionally hard-wearing in all areas

**Motorcycle-specific cut**

This cut takes account of the body's contours in the riding position. The tops of the sleeves are further forwards, the sleeves and legs are angled, and there are numerous other special design details.

**Nappa leather**

The upper surface of the hide. Smooth and slightly shiny, worked to a soft leather with a fine grain.

**Nickel-free accessories**

All BMW Motorrad buttons and zips are nickel-free to protect the skin.

**Nubuk leather**

A highly breathable leather with a slightly roughened surface, resulting in a firm grip.

**Nyspan**

A bi-stretch fabric made from comfortable elastic yarn that distorts and regains its original shape with ease.

**Offroad helmet**

A helmet with a chin guard and sun shield but no visor.

**PCP/CP**

Pentachlorophenol (PCP) is banned under the German prohibited chemicals order of 14 October 1993, though it may be used in concentrations of up to 5 mg/kg in leather processing.

**3-Perform**

Abrasion-resistant, three-layer elasticated laminate that is windproof, waterproof and breathable thanks to the BMW Climate Membrane.

**Phase change material (PCM)**

The micro capsules in phase change material react to temperature changes in the environment and your body by changing its state of matter at a certain temperature. If the body/ambient temperature increases, the capsules store excess heat. If the temperature drops, they emit this absorbed heat.

**PORON**

A foam that comes in a variety of densities and specifications. Our gloves use specially designed foams that provide a high level of impact protection and keep their shape over a long period.

**ProTechWool**

A unique blend of wool and polyamide. It's breathable, quick-drying and heat-conducting.

**ProtectionGuard**

This material combines the looks, quality and technical properties of raw leather with the easy maintenance of a performance fabric.

**Protectors**

The protectors used by BMW Motorrad are regularly put back on the developer's table and upgraded for every conceivable motorcycling scenario. The protectors are certified according to DIN EN 1621. All protectors are available in different sizes to ensure all riders can choose what suits them. Your BMW Motorrad dealership will be happy to help you work out your size.

**NP2:** high-level impact absorption, excellent comfort, designed especially for touring, adventure and sports gear, certified according to DIN EN 1621 Level 2 (highest level of protection).

**NP Pro / NP Pro back protector (long):** will replace the previous NP2 back protector in new suits beginning in 2018. Designed with six layers for optimum fit and flexibility, it features perforations for maximum comfort even in high temperatures. Certified according to DIN EN 1621 Level 2 (enhanced protection). The long version measures around 7 cm longer and is available for adventure and touring suits, as well as for the Rallye and GS Dry suits for the first time.

**NP Pro chest protector:** can be retrofitted to the Rallye suit. It can be secured with press studs in the front and is height-adjustable (two positions). Designed with several layers and perforated for enhanced ventilation. Includes a plastic splint in the middle area for better impact-absorption. The trapezoid protector is available in two sizes. Your BMW Motorrad dealership will be happy to help you work out your size.

**NPL:** lighter protection designed especially for the urban environment, offering high levels of comfort and excellent impact absorption, certified according to DIN EN 1621 Level 1.

**Schoeller PCM**

Derived from space research, this material features special paraffin capsules that allow it to store heat when warm and release it when the temperature drops. This means it can minimize fluctuations in body temperature, keeping the rider comfortable. The material is at its most effective between temperatures of 5 °C to 25 °C.

**Seamless bonding technology**

This process involves placing two pieces side by side, then covering the join with tape and pressure-bonding them with hot glue to create a flat, elastic join rather than a sewn seam.

**Serafil**

Highly tear-resistant safety yarn used in all BMW Motorrad motorcycle suits.

**Shape-Shift™ technology**

This forming technology uses a partition in the reservoir to keep the drink tube flat even when the two-litre container is full.

**Safety – active and passive**

Active safety measures are designed to prevent accidents, for example by using reflective material for good visibility. Passive safety features aim to minimize the effects of an accident, for instance by employing impact-resistant protectors and outer materials.

**Z-Liner**

Here, the membrane is like a lining "suspended" between the outer material and the lining itself.
